

Philosophy the Meaning of Life

9 pages | 2150 words

There are many different views as to what makes life meaningful. Philosopher, Thomas Nagel, presents a good argument as to why a "Sisyphusian" existence is meaningless. This does not necessarily mean that all lives are meaningless, because Richard Taylor and Raymond Martin provide strong evidence that prove otherwise. According to Greek mythology, "The Myth of Sisyphus", by Albert Camus, condemns Sisyphus to forever roll the same rock up a hill; only to see it roll back down once he reached the top.

Sisyphus' "scorn of the gods, his hatred of death, and his passion for life" was the reason for his punishment and endless turmoil in accomplishing nothing (Camus 775). In Nagel's essay "The Absurd", his views on the meaninglessness of life and the absurdity of it, provide evidence that Sisyphus leads a meaningless life and how all people are condemned to lead this life. He points out that the absurd comes about by "the collision between the seriousness with which we take our lives and the perpetual possibility of regarding everything about which we are serious as arbitrary, or open to doubt"(Nagel 769).

In other words, the things people take seriously in their lives are always open to doubt. Nagel believes that human life becomes absurd when the realization of living an unreasonable life becomes known. "Once the fundamental doubt has begun, it cannot be laid to rest"(771). When people begin to doubt their existence, they search for answers that cannot be justified. Humans are capable of being self-conscious and self-inspiring which gives them the ability to step back and observe themselves from an outside point of view. This allows them to see the reality and pointlessness of their goals.

Some people try to escape the absurd and try to add meaning to their lives by giving themselves a role in something bigger. When Nagel says, "a role in some larger enterprise cannot confer significance unless that enterprise is itself significant", he means that the larger enterprise cannot have meaning, unless the enterprise as a whole has meaning (770). According to Nagel, for something to be meaningful it must be objectively meaningful. For example, Sisyphus leads an objectively meaningless life because he is condemned to roll the stone up the hill forever and achieving nothing.

Nagel says that the life of a mouse is not absurd because the mouse is not aware that it is only a mouse; it does not have the ability to perceive its life like humans can. "Absurdity is one of the most human things about us: a manifestation of our most advanced and interesting characteristics"(774). The absurdity shows people that their lives are meaningless; and when this is recognized, the logical conclusion is suicide. This solution to absurdity is not accepted; instead it is suggested to keep on living in spite of the absurdity of life.

"If we relied hard on reason our life would have collapsed" because relying only on reason would leave people with many philosophical questions, leaving them to dwell on the doubts of life (773). One way to...

Exploring the Meaning of Life Joshua W. Seachris,2012-09-04 Much more than just an anthology this survey of humanity s search for the meaning of life includes the latest contributions to the debate a judicious selection of key canonical essays and insightful commentary by internationally respected philosophers Cutting edge viewpoint features the most recent contributions to the debate Extensive general introduction offers unprecedented context Leading contemporary philosophers provide insightful introductions to each section God and the Meanings of Life T. J. Mawson,2016-10-20 Some philosophers have thought that life could only be meaningful if there is no God For Sartre and Nagel for example a God of the traditional classical theistic sort would constrain our powers of self creative autonomy in ways that would severely detract from the meaning of our lives possibly even evacuate our lives of all meaning Some philosophers by contrast have thought that life could only be meaningful if there is a God God and the Meanings of Life is interested in exploring the truth in both these schools of thought seeking to discover what God could and couldn t do to make life meaningful as well as what he would and wouldn t do Mawson espouses a version of the amalgam or pluralism thesis about the issue of life s meaning in essence that there are a number of different legitimate meanings of meaning and indeed life in the question of life s meaning According to Mawson God were he to exist would help make life meaningful in some of these senses and hinder in some others He argues that whilst there could be meaning in a Godless universe there could be other sorts of meaning in a Godly one and that these would be deeper

What Makes Life Meaningful? Thaddeus Metz,Joshua W. Seachris,2023-11-30 Can human life be meaningful What does talk about life s meaning even mean What is God s role if any in a meaningful life These three questions frame this one of a kind debate between two philosophers who have spent most of their professional lives thinking and writing about the topic of life s meaning In this wide ranging scholarly conversation Professors Thaddeus Metz and Joshua W Seachris develop and defend their own unique answers to these questions while responding to each other s objections in a lively dialog format

Seachris argues that the concept of life's meaning largely revolves around three interconnected ideas: mattering, purpose, and sense-making. That a meaningful human life involves sufficiently manifesting all three, and that God would importantly enhance the meaningfulness of life on each of these three fronts. Metz instead holds that talk of life's meaning is about a variety of properties such as meriting pride, transcending one's animal self, making a contribution, and authoring a life story. For him, many lives are meaningful insofar as they exercise intelligence in positive, robust, and developmental ways. Finally, Metz argues that God is unnecessary for an objective meaning that suits human nature. Metz and Seachris develop and defend their own unique answers to these three questions while responding to each other's objections in a dialog format that is accessible to students, though given their new contributions will be of great interest to scholars as well.
