Flight Command From The Farm To The Frontline:

Flight Command John Oddie, Mark Abernethy, 2014-08-05 As a farm boy in western Victoria John Oddie would watch RAAF jets pass overhead as he ploughed hay fields wondering what it would be like to fly such a machine Thirty five years later having flown Hueys Chinooks Hercules jets and C 17s in a range of operations John had risen to the rank of Air Commodore John's appointment as deputy commander of Aussie forces in the Middle East capped a remarkable career of service to Australia Sadly this honour also involved the heartbreaking duty of informing families of the deaths of their husbands and sons in Afghanistan and overseeing departure ceremonies for the fallen soldiers As well as covering the war in Afghanistan Flight Command provides an insider's account of being a combat pilot in the first Gulf War a commander supporting peace in Bougainville and security in Cambodia and the often harrowing experience of being a first response commander dealing with the aftermath of the Boxing Day tsunami in Indonesia By turns heart warming and poignant Flight Command is the story of a farm boy who managed to carve an international career in the military that included service in two wars

Fighting in Normandy David C. Isby,2016-06-30 Collected in depth accounts from Nazi commanders chronicling their efforts to fight back against the Allied invasion at Normandy during World War II The Allied landings on the Normandy beaches in June 1944 were brilliantly executed but proved to be just the opening phase of a desperately fought battle The German Army responded to the invasion with as much ferocity and force as it could muster and turned the struggle into a brutal and prolonged campaign These in depth reports by German commanders given the task of turning the tables on the invaders is crucial to a full understanding of the battle for Normandy The accounts David Isby has selected all written soon after the war s close for American military intelligence cover German attempts to stem the invasion dramatic defensive battles in the Norman countryside and attempts to implement a series of counterattacks This vital source material presents the German perspective on the fighting from regimental to corps level and graphically illustrates the wealth of problems faced by an army on the very brink of destruction

The Pointblank Directive L. Douglas Keeney,2012-12-18 The Pointblank Directive is the result of extensive new research that creates a richly textured portrait of perhaps the last untold story of D Day Where was the Luftwaffe on D Day Following decades of debate 2010 saw a formerly classified history restored and in it was a new set of answers This title analyzes three uniquely talented men and why the German Air Force was unable to mount an effective combat against the invasion forces Following a year of unremarkable bombing against German aircraft industries General Henry H Hap Arnold commander of the U S Army Air Forces placed his lifelong friend General Carl A Tooey Spaatz in command of the strategic bombing forces in Europe and his protégé General James Jimmy Doolittle command of the Eighth Air Force in England For these fellow aviation strategists he had one set of orders sweep the skies clean of the Luftwaffe by June 1944 Spaatz and Doolittle couldn t do that but they could clear the skies sufficiently to gain air superiority over the D Day beaches The plan was called Pointblank

Battle of Stalingrad Dmitry Degtev,2024-08-30 The Battle of Stalingrad was the bloodiest battle of the Second World War An estimated 2 million individuals military as well as civilian became casualties in a savage struggle which lasted for more than five months Stalingrad s strategic position on the River Volga in southern Russia meant that whoever controlled the city controlled access to the oil fields of the Caucasus Without that oil the Germans were ultimately destined to fail on all fronts The Battle of Stalingrad was therefore arguably the most important conflict of the entire war Yet the author argues that both Hitler and Stalin lost sight of the real objectives of the campaign with the capture of Stalingrad becoming seen as the end in

itself Stalingrad was not specified as a particular objective of the Germans in the original plan of Operation Blau. But when the defenders of Stalingrad unexpectedly stood in the way of the Germans it became the focal point of the German effort. Hitler and his generals were naively sure that after the capture of Stalingrad victory in the war was a certainty. Stalin and his generals thought that since the Wehrmacht stubbornly fought over the city's ruins regardless of the losses it suffered it meant that the Germans knew more about its importance than they did and so were determined to hold it at all costs. In fact the strategic importance of Stalingrad was greatly exaggerated. The scale of the German operation to seize the Caucasus was immense with an operation stretching for 1 500 00 kilometres approximately equal to the distance between Berlin and Moscow. This involved laying routes for tank and infantry divisions through areas of virtual desert where there was an almost complete absence of railways and highways. No consideration was given to the needs of troops in fuel ammunition food or even water. At the same time the unrealistic plan to capture the Caucasus did not provide any alternative options in case the main operation failed which it was doomed to do. As for the Soviets frightened and broken by the military disasters near Kerch and Kharkov when entire armies were captured Stalin authorized the retreat of the Red Army to the Volga which turned into a stampede. But then the Soviet leader abruptly changed his mind and issued the famous order 'Not a step back'. While historians state that this order inspired the Soviet troops to resist and strengthened discipline it in fact led to an increase in the number of defectors and collaborators. This ground breaking study of the Battle of Stalingrad is a highly graphic chronicle of the fighting shown from two sides written by a Russian historian using much material previously unpublished in the West. It details the efforts of all branches of the armed forces tanks artillery infantry aviation and for the first time the important contribution of the Russian river flotilla.

The Falklands Guns Mike Fonf , 2023-06-01

The Oerlikon twin 35mm anti aircraft gun was the one weapon in the Argentine armory which had a major impact on the British air campaign during the Falklands Conflict in 1982. Indeed General Mario Benjamin Men ndez transient Argentine Governor of Las Islas Malvinas proudly boasted that The anti aircraft gunners were the only Argentine forces on the Malvinas not to be beaten directly by the British and can take pride in being the first and the last to fire on the enemy. Following the Argentine surrender what were then the latest of these Swiss built all weather Skyguard radar directed guns which had been purchased by the Argentine Government for 30 million were recovered from the Falklands battlefields by a young squadron leader who recognized their value to the RAF for airfield defense. That officer Michael Fonf  was then handed the task of creating two Royal Auxiliary Air Force Regiment squadrons from scratch to operate the guns. This story of the Falkland Guns begins with an account of the experiences of three Argentine anti aircraft artillery units during the Falklands War drawing in part on many original Argentine documents the enemy gunners left behind being unable to take them with them as prisoners of war. Comparisons are drawn with the inferior British equivalents by the gunners who had to man them and the obvious benefits the capture of the new Oerlikons would be to the RAF. After successfully incorporating Nos 2729 and 2890

Squadrons into the RAF Regiment's structure which included women in combat roles for the first time Michael Fonf was promoted to Wing Commander He was then handed responsibility for all RAF ground based air defense weapons during the long years of the Cold War *Acronyms, Initialisms & Abbreviations Dictionary* ,2001-05 Each volume separately titled v 1 Acronyms initialisms v 2 New acronyms initialisms v 3 Reverse acronyms initialisms abbreviations dictionary formerly issued independently as Reverse acronyms and initialisms dictionary New York Magazine ,1980-10-13 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *National Fax Directory* ,1993
