plants would be the ideal in the extreme vegetarianism shows up the compromise that is made once plants are brought into the sentient realm Finally the author explores the founding premises of several current environmental leaders and movements in India that focus on plants e g tree protection tree planting seed saving biodiversity to examine whether contemporary plant oriented ecological activism in India reflects older traditional ideas about plants Asking whether new Hindu Jain or Buddhist movements reflect respective older ideas the author finds that contemporary Indian practices remain on the whole authentic reflections of their older roots
