*A Fool's Babel* T. A. Richards II, 2015-07-16 Have you ever heard the expression If I told you I would have to kill you Most of the time it is said as a joke and used to spread merriment and good cheer No one takes it seriously and usually people just laugh it off In my case however there would be no laughing but there certainly would be killing But it wouldn't be me that did the killing it would be the government We all know that the government has secrets and we all know that they would do whatever was necessary to keep those secrets They would kill you in your sleep or while you were driving your car and make it look like an accident They would even invade a sovereign nation and execute an evil dictator History and even current events can testify to the lengths our government would go to keep and protect their secrets What if some of the secrets involved an ancient virus that our government wanted to use as a bioweapon You know as well as I do that nothing would stop them from keeping that information out of the news stream What if I told you that the government took it even further and tried to enhance the virus It's completely believable isn't it But what would happen if the virus mutated and completely changed the host into a ferocious killing machine This sounds like something our government could use against its war of

terror doesn't it Without giving you a lot of details I can tell you that this type research is not new to our government For decades they've been conducting research in hidden facilities all over the world I've been on more than one mission to clean up the mess made when the research gets out of hand This story however is beyond the scope of anything I had ever encountered before The destruction I saw was almost unbelievable and the creatures I fought seemed more supernatural than natural

**The Guardian's Passion** Amber H. Royce, 2009-05 Talidon has a proud history spanning more than three hundred years The Talidians are a quiet and industrious people steeped in tradition Among these is the revered office of the Guardian protector of the King In a moment of carelessness the king and his family are killed and a usurper seizes his throne The people of Talidon look to the Guardian to fulfill the role that he alone can fill as the redeemer of the throne Unable to mount a resistance against the usurpers from the North and in peril for his life the Guardian with his family is forced to flee for their lives A tragic accident in their journey leaves the Guardian dead and his young daughter orphaned scarred and without her memory Years later a series of events reacquaints his daughter with her identity and her inherited responsibility to the people of Talidon By tradition and law only she is able to restore a ruler to the throne of Talidon She sets out to regain her place as the Guardian armed only with her faith a special gift and passion to return Talidon to peace and order Will she be able to overcome her own trepidation and uncertainty and trust in the Lord to restore Talidon to her former glory
