technological advances for the crash reconstruction community have come in the realms of photogrammetry and digital media analysis. The widespread use of scanning technology has facilitated the implementation of powerful new tools to digitize forensic data, create 3D models and visualize and analyze crash vehicles and environments. The introduction of unmanned aerial systems and standardization of crash data recorders to the crash reconstruction community have enhanced the ability of a crash analyst to visualize and model the components of a crash reconstruction. Because of the technological changes occurring in the industry, many SAE papers have been written to address the validation and use of new tools for collision reconstruction. Collision Reconstruction Methodologies Volumes 1-12 bring together seminal SAE technical papers surrounding advancements in the crash reconstruction field. Topics featured in the series include Night Vision Study and Photogrammetry, Vehicle Event Data Recorders, Motorcycle, Heavy Vehicle, Bicycle and Pedestrian Accident Reconstruction. The goal is to provide the latest technologies and methodologies being introduced into collision reconstruction, appealing to crash analysts, consultants and safety engineers alike. Franklin Jack Marla Thadius and Caitlin this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job, no really, we mean any bloody job, money's a bit tight right now. Trudge through disgusting sewers to battle manatees, massacring mermaids and soggy cultists creep through creepy fog littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad Mad Scientist, a surly Necromancer, a Banshee's granddaughter and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other or at least quit fighting over the tele privilege schedule long enough to get the job done. Not likely.
