**My Brother's Keeper** Jonathan Burnside, Joanna Adler, Nancy Loucks, Gerry Rose, 2013-06-17 Ten years ago there were no faith based units in prisons outside South America Today they are spreading all over the world including the United States Europe and the Commonwealth My Brother s Keeper is the first major study of a global phenomenon Exploring the roots of faith based units in South America it explains why the Prison Service of England and Wales set up the first Christian based unit in the western world in 1997 and its rapid expansion It also explains how at exactly the same time the United States introduced Christian based units and why they were complimented by interfaith and multifaith initiatives At the heart of My Brother s Keeper is an interior account of life inside four Christian based prison units in England It draws on the findings of a detailed evaluation conducted by the authors for the Home Office Prison Service and Kairos Community between 2000 and 2001 including an updated reconviction study It is an authoritative account of an innovative programme Its analysis of what works and what doesn t in faith based units around the world makes My Brother s Keeper a valuable roadmap for all who care about improving prison conditions It presents a vision of justice that is not just concerned with building more prisons but with rebuilding more prisoners It argues that by making prisons more human and punishment more humane faith based units can be of value and keep faith in prisons

with the study of humor      **Resources in Education** ,1988      **This Thing Called the World** Debjani Ganguly,2016-07-21

In *This Thing Called the World* Debjani Ganguly theorizes the contemporary global novel and the social and historical conditions that shaped it. Ganguly contends that global literature coalesced into its current form in 1989, an event marked by the convergence of three major trends: the consolidation of the information age, the arrival of a perpetual state of global war, and the expanding focus on humanitarianism. Ganguly analyzes a trove of novels from authors including Salman Rushdie, Don DeLillo, Michael Ondaatje, and Art Spiegelman, who address wars in Iraq, Afghanistan, and Sri Lanka; the Palestinian and Kashmiri crises; the Rwandan genocide; and post-9/11 terrorism. These novels exist in a context in which suffering's presence in everyday life is mediated through digital images and where authors integrate visual forms into their storytelling. In showing how the evolution of the contemporary global novel is analogous to the European novel's emergence in the eighteenth century when society and the development of capitalism faced similar monumental ruptures, Ganguly provides both a theory of the contemporary moment and a reminder of the novel's power.      Forthcoming Books Rose Arny,1997
