world as such That is because it is spirit based and all spiritual lives are physically based First Corinthians 2 14 15 says The natural man receiveth not the things of the Spirit of God for they are foolishness unto him neither can he know them because they are spiritually discerned But he that is spiritual judgeth all things yet he himself is judged of no man That means scientists could never use genetic engineering to find the true meaning of passions hobbies or bonding to someone or something as an affinitive life because it is foolishness to them Genetic engineering is the direct manipulation of an organism s genome which means its genes are used by biotechnology also called genetic modification which is genetic manipulation of the genes of an organism s genome This book is the book of affinitive life part 1 to the natural side of life and the book of life to the spirit side of life of invited signals of love For that reason the name of this book is The Book of Affinitive Life Part 1 in Conjunction The Book of Life It is called The Book of Affinitive Life as it refers to and relates to the natural side of life first and then to the same degree it relates to the spirit side of life Additionally it characterizes the Book of Life which no natural or ordinary man could write there had to be a spiritual component All affinitive lives are lived optionally as a habitual lifestyle or habit in natural life in conjunction with natural life as an integral part Organizational Report Cards William T.
