## **Kaiser Doctors Note:**

**Closing Death's Door** Michael J. Saks, Stephan Landsman, 2021-01-21 Closing Death's Door brings the psychology of decision making together with the law to explore ways to improve patient safety and reduce iatrogenic injury the cause of as many as 400 000 US deaths every year in a world where neither the healthcare industry itself nor the legal system has made a serious dent in the problem

**The Fragmentation of U.S. Health Care** Einer Elhauge, 2010-03-22 Why is our health care system so fragmented in the care it gives patients Why is there little coordination amongst the many doctors who treat individual patients who often even lack access to a common set of medical records Why is fragmentation a problem even within a single hospital where errors or miscommunications often seem to result from poor coordination amongst the myriad of professionals treating any one individual patient Why is health care fragmented both over time so that too little is spent on preventive care and across patients so that resources are often misallocated to the patients who need it least The Fragmentation of U S Health Care Causes and Solutions approaches these broad questions with a highly interdisciplinary approach The articles included in the work address legal and regulatory issues including laws that mandate separate payments for each provider restrict hospitals or others from controlling or rewarding the set of providers treating a patient to assure coordinated care and provide affirmative disincentives for coordinating care by paying more for uncoordinated care that requires more services Business reasons for the current form of hospital organization are considered and efficiency and design are examined and compared to other industries The economics of current hospital organization are also taken into account The authors examine and propose various reforms that make our health care system less fragmented more efficient and more medically effective

McLean,1917      **Empirical Legal Analysis** Yun-chien Chang,2013-12-17 This innovative volume explores empirical legal  
issues around the world While legal studies have traditionally been worked on and of letters and with a normative bent in  
recent years quantitative methods have gained traction by offering a brand new perspective of understanding law That is  
legal scholars have started to crunch numbers not letters to tease out the effects of law on the regulated industries citizens  
or judges in reality In this edited book authors from leading institutions in the U S Europe and Asia investigate legal issues in  
South Africa Argentina the U S Israel Taiwan and other countries Using original data in a variety of statistical tools from the  
most basic chi square analysis to sophisticated two stage least square regression models contributors to this book look into  
the judicial behaviours in Taiwan and Israel the determinants of constitutional judicial systems in 100 countries and the  
effect of appellate court decisions on media competition In addition this book breaks new ground in informing important  
policy debates Specifically how long should we incarcerate criminals Should the medical malpractice liability system be  
reformed Do police reduce crime Why is South Africa s democratic transition viable With solid data as evidence this volume  
sheds new light on these issues from a road more and more frequently taken what is known as empirical legal studies  
analysis This book should be useful to students practitioners and professors of law economics and public policy in many  
countries who seek to understand their legal system from a different and arguably more scientific perspective
