within relatively simple characters which can in turn serve as parts of more complicated characters and so on Taking advantage of this allows a logical ordering making it possible for students to approach most new characters with prior knowledge that can greatly facilitate the learning process Guidance and detailed instructions are provided along the way Students are taught to employ imaginative memory to associate each character's component parts or primitive elements with one another and with a key word that has been carefully selected to represent an important meaning of the character This is accomplished through the creation of a story that engagingly ties the primitive elements and key word together In this way the collections of dots strokes and components that make up the characters are associated in memorable fashion dramatically shortening the time required for learning and helping to prevent characters from slipping out of memory
