bid for a share of the humanitarian market brokered by the Red Cross in wartime Europe of its clinical trials in Swiss and Senegalese maternities and of its agricultural modernisation schemes in Mexico India and the Ivory Coast Based on extensive research in the firm's own historical archives and the records of national and international aid agencies the volume interrogates the legacies of this long history for international development today **L'Empire de l'aube - Tome 1** Alexia Mahdidi, 2012-04-12 Alors que de sombres menaces pesent sur l'empire de l'aube une jeune fille issue de la classe des Lettrés les dirigeants de son pays va briser l'un des plus importants tabous de sa caste En dansant lors d'une soirée au Palais et poussée par une force mystérieuse avec la reine des saltimbanques elle n'imagine pas encore quelles seront les conséquences de son geste Des aventures des espions un peu de science fiction tous les ingrédients sont ici réunis pour faire du Sang des saltimbanques premier opus de L'Empire de l'aube l'un de ces formidables romans populaires succés capables de fédérer tous les grands adolescents en mal devasion Mais aussi grâce à l'écriture fluide d'Alexia Mahdidi leurs parents et leurs grands parents d couvrir sans tarder et ne plus l'cher en attendant le deuxième tome **L'histoire de la décadence de l'empire Grec, et établissement de celui des Turcs** Laonicus Chalcocondylas, 1620 **L' Histoire de la décadence de l'empire grec et établissement de celui des Turcs** Laonicus (Chalcocondyles), Laonicus Chalcocondylas, 1620 *Empires, Nations and Private Lives* François-Olivier Dorais, Daria Dyakonova, Nari Shelekpayev, 2016-02-22 This book brings together a series of papers presented at a University of Montreal interdisciplinary conference held in March 2014 and devoted to various little known facets of the First World War's cultural and social history The commemorative activities of the war's centennial triggered the conference as this anniversary had precipitated a lively renewal of historical reflections on the causes and consequences of this global conflict If the commemoration was an occasion to foster a more civic minded pedagogical approach regarding the meaning of this major historical event the conference itself strove to engage the rich and substantial body of research about the war that had evolved over the past few decades While taking national and regional approaches into account this book also aligns itself with the recent interest in a global history of the Great War that by not excluding various national traditions strives to re-examine the causes and consequences of the conflict from a perspective whose scope extends beyond Europe By engaging in a broader temporal and spatial consideration of the war this standpoint not only calls into question the relevance of using the nation state as a singular political and cultural framework with which to understand the conflict but also and especially strives to more clearly apprehend peripheral geopolitical spaces particularly Africa and the Americas in the conflict and to integrate them more effectively **Nourishment** Corine Pelluchon, 2019-02-21 In her new book Corine Pelluchon argues that the dichotomy between nature and culture privileges the latter She laments that the political system protects the sovereignty of the human and leaves them immune to impending environmental disaster Using the phenomenological writings of French philosophers like Emmanuel Levinas Jacques Derrida and Paul Ricœur Pelluchon contends that human beings have to recognise humanity's dependence upon the natural world for survival and adopt a new

philosophy of existence that advocates for animal welfare and ecological preservation In an extension of Heidegger's ontology of concern Pelluchon declares that this dependence is not negative or a sign of weakness She argues instead that we are nourished by the natural world and that the very idea of nourishment contains an element of pleasure This sustenance comforts humans and gives their lives taste Pelluchon's new philosophy claims then that eating has an affective social and cultural dimension but that most importantly it is a political act It solidifies the eternal link between human beings and animals and warns that the human consumption of animals and other natural resources impacts upon humanity's future
