First Grade Elementary Open Court:

On the Miss Middleton Effect Geraldine E. Rodgers, 2022-07-20 Miss Middleton's scores are indeed a frozen moment in time which prove the existence in 1913 and 1914 of automatic phonic decoding of print as opposed to conscious psycholinguistic decoding of print. The scores also prove that automatic decoding does result from the phonic sound method to teach reading since that is how Miss Middleton's children learned to read. However, the reading experts in 1914 and after must have misinterpreted scores like Miss Middleton's wildly fluctuating scores which obviously were the result of freely wandering attention by concluding instead that the scores had proved that the sound method had failed. The truth is that such low reading comprehension scores on silent reading comprehension tests for phonic trained classes suggest the presence of healthy automatic conditioned reflexes in reading. Such scores may result from the Miss Middleton Effect of voluntarily wandering attention while reading automatically. Her children simply did not bother to pay attention to what they were reading automatically but could have done so if they felt like it. Yet the inferior deaf mute sight word method forces children's attention to meaning or they cannot read at all. They may therefore score higher on simple reading comprehension tests but far far worse on spelling and on reading correctly the actual words on the page. Schoolhouse Shams Peter Downs, 2013. Written by a parent and school board member who first embraced many of the ideas of the modern school reform movement. Schoolhouse Shams lays bare much of the mythology and misinformation that underpin many of the failed school reform policies of the last decade. Many of the top strategies of the highly publicized school reform movement already have been tried out in St Louis with disastrous results. Along with demonstrating the failure of school reform prescriptions to improve education, the experience of St Louis demonstrates that the ideological premise of the reform movement that a focus on providing opportunities for private profit taking will necessarily improve schools is both wrong and conflicts with the ideals of democracy, accountability, and justice. **PREP Report**, 1972 **Hearings, Reports, Public Laws** United States.
