First Do No Harm Walter Gratzer, 2017-09-19 The history of medicinal drugs extends back to the earliest human civilizations when the search began for natural materials plant animal or mineral that might possess the power to cure alleviate or avert maladies or wounds The quest continues still conducted now by scientists and doctors in the thousands and in the shadow of big pharma The story abounds with human interest populated as it is with geniuses and charlatans with the inspired and the deluded with self sacrifice and self aggrandizement Medicine over the centuries has been pervaded by false doctrines amounting to superstitions the causes of endless misery and numberless death and there were truths not recognized for decades and longer Finally industry and its profit motive has become an inescapable presence which is sometimes a blessing to some or a curse to others a source sometimes of corruption or sometimes of dazzling progress Which of these predominates it is up to the reader to judge

Edzard Ernst,2020-05-20 So called alternative medicine SCAM is largely useless very few SCAMs demonstrably generate more good than harm Yet SCAM is popular and has grown into a huge business Spending on SCAM in Australia 2016 was estimated to be AUS 3 9bn in the UK 2008 4 5bn and in the US 2012 US 30 2bn Why is something that is expensive and useless nevertheless popular One answer is that consumers are constantly being misled about SCAM Consequently many of us have come to believe things that are quite simply not true Currently over 50 000 000 websites promote SCAM and consumers are being bombarded with information not just via the internet but also via newspapers magazines books and many other sources This situation has the potential of separating us from our cash or even of damaging our health There is little that protects us from greedy SCAM entrepreneurs and over enthusiastic SCAM therapists Therefore we ought to protect ourselves This book offers this protection for anyone who is willing to reconsider their own beliefs It discloses the errors and lies that misled you into believing things about SCAM that are untrue It analyses the many falsehoods used in the promotion of SCAM explains the erroneous thinking behind them and presents the scientific evidence in easily understandable terms In a way Ernst s new book amounts to a course in critical thinking a skill that should prove to be helpful far beyond the realm of healthcare Ernst s previous book was entitled SCAM So Called Alternative Medicine *The Spirit of Wisdom and Revelation II* Vestinia M. Hippocrates Now Helen King, 2019-11-14 This book is available as open access through the Knowledge Unlatched programme and is available on www.bloomsburycollections.com We need to talk about Hippocrates Current scholarship attributes none of the works of the Hippocratic corpus to him and the ancient biographical traditions of his life are not only late but also written for their own promotional purposes Yet Hippocrates features powerfully in our assumptions about ancient medicine and our beliefs about what medicine and the physician himself should be In both orthodox and alternative medicine he continues to be a model to be emulated This book will challenge widespread assumptions about Hippocrates and in the process about the history of medicine in ancient Greece and beyond and will also explore the creation of modern myths

about the ancient world Why do we continue to use Hippocrates and how are new myths constructed around his name How do news stories and the internet contribute to our picture of him And what can this tell us about wider popular engagements with the classical world today in memes quotes and online *Dawn of Sunday* Joshua Cockayne, Scott Harrower, Preston Hill, 2022-06-08 Whether we realize it or not our churches are full of those who have experienced and are living with the aftereffects of horror and trauma whether as survivors carers or perpetrators The central question of this book is simple How can our churches become open to the Trinity such that they are trauma safe environments for everyone How can we join the triune God to become trauma safe churches While the reality is bleak the church can dare to hope for healing because of the reality of God and the body of Christ Using the metaphor of the dawn of Sunday the authors propose a double witness to trauma that straddles the boundary between the deadly silence of Holy Saturday and the joy of Easter Sunday While witnessing loss and lament we can also be open to the possibility of new life through God's trinitarian works of safety and recovery in the church This involves adopting some basic principles and practices of trauma safety that every pastor congregation and layperson can begin using today Creating trauma safe churches is possible through God the Trinity
