Autocar, 2002 **Corporate Reputation and Competitiveness** Rosa Chun, Rui Da Silva, Gary Davies, Stuart Roper, 2005-09-29 This unique book written by four world leaders in reputation research presents the latest cutting edge thinking on organizational improvement It covers media management crisis management the use of logos and other aspects of corporate identity and argues the case for reputation management as a way of overseeing long term organizational strategy It presents a new approach to managing reputation one that relies on surveying customers and employees on their view of the corporate character and in harmonizing the values of both This approach has been trialled in a number of organizations and here the authors demonstrate how improving reputation merely by learning more about what a company is already doing is worth some five per cent sales growth The book is a vital up to date resource for specialists in corporate communication public relations marketing HRM and business strategy as well as for all senior management Highly illustrated with over eighty diagrams and tables it includes up to the minute illustrative case studies and interviews with leading authorities in the field **Time for a Model Change** Graeme P. Maxton, John Wormald, 2004-11-04 The automotive industry ranks among the most significant business phenomena of the 20th century and remains vitally important today accounting for almost 11% of the GDP of North America Europe and Japan and one in nine jobs In economic and social terms alike its products have had a fundamental impact on modern society for better and worse Yet the industry has found it hard to adjust to recent challenges and is no longer much valued by the capital markets It is riven with internal contradictions that inhibit reform and faces a stark choice between years of strife or radical change This book is a wake up call for those who work in

the automotive business It highlights the challenges and opportunities that exist for managers legislators financial institutions and potential industry entrants Most of all it gives us all cause to reflect on the value of our mobility today and tomorrow
