plot its scope and limits With the assistance of analytic philosophy it parts logic grammar from metaphysics vocabulary along the lines of a non computational formula of Bertrand Russell and so falsifies the major premise of the Vienna Circle using its own central tenet the Principle of Verification Having arrived at corpus derived subtext the semantic aura of grammar strings as distinguished from Semantic Prosody the second half of the book proceeds to verify the theory on Slavic languages The focus is on the poet Alexander Pushkin whose authorial intention becomes computationally recoverable Prose is handled on samples authored by David Lodge where authorial sincerity Louw 1993 is viewed on a cline of inspiration and quality of discourse Other applications in the volume include studies on translation negotiation humour and the reception of CPT

Conclusions: Beyond the masculine mystique. Throughout the book, Miedzian emphasizes that because males have a high potential for aggression and violence, every effort should be made to encourage and model for males those qualities that are counter to violence. She illustrates the large extent to which our culture currently and historically encourages qualities and values that increase a male's propensity for violence.

From a review of the book by Lori A. Cillo: **Getting to Yes in Korea** Walter C. Clemens Jr., 2015-11-17. President George W. Bush had pinned North Korea to an axis of evil but then neglected Pyongyang until it tested a nuclear device. Would the new administration make similar mistakes? When the Clinton White House prepared to bomb North Korea's nuclear facilities, private citizen Jimmy Carter mediated to avert war and set the stage for a deal freezing North Korea's plutonium production. The 1994 Agreed Framework collapsed after eight years but when Pyongyang went critical, the negotiations got serious. Each time the parties advanced one or two steps, however, their advance seemed to spawn one or two steps backward. Clemens distills lessons from U.S. negotiations with North Korea, Russia, China, and Libya and analyses how they do and do not apply to six-party and bilateral talks with North Korea in a new political era.
