X-kit FET Grade 12 GEOGRAPHY, 2008 *Twenty Years of Education Transformation in Gauteng 1994 to 2014*
Maringe, Felix, Prew, Martin, 2015-05-05 *Twenty Years of Education Transformation in Gauteng 1994 to 2014* An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994. These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects. Each essay is written by one or more specialist in the relevant focus area. The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader. It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially. There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past. We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years. **The Condition of Primary and Secondary Education in Gauteng (1995/1996)** Adél Hartley, 1998 [South African national bibliography](#), 1999. Cases on DEI in STEM education highlight the real-world challenges and strategies educators face in promoting equitable access to learning opportunities, dismantling biases, and empowering students from historically marginalized communities. Further exploration may reveal powerful teaching tools and catalyze reflective practice and institutional change, encouraging educators to critically examine their roles in shaping a more inclusive future in math and science. *Cases on Diversity, Equity, and Inclusion for Mathematics and Science Education* explores key issues and concepts related to diversity, equity, and inclusion in mathematics and science classrooms. It offers solutions and successful strategies for teaching and learning in mathematics and science. This book covers topics such as inclusive classrooms, K-12 education, pre-service teaching, and is a useful resource for educators, sociologists, academicians, researchers, and scientists. **The Politics and Governance of Basic Education** Brian Levy, Robert Cameron, Ursula Hoadley, Vinodhan Naidoo, 2018-09-05.
