and Germany against the Allies England France and Russia Sharif Hussein bin Ali Al Hashemi Ameer of Mecca then in the hope of an opportunity to liberate the Arab World sided with the Allies He launched the Great Arab Revolution of 1916 After the war however the victors reneged on their promises to the Arabs The Allies France and Britain have obscured their intentions of recognizing the Arab Nation They were deceptive and had no intention of keeping what they have promised This book is a testimony to the sacrifices rendered by Arab Nationalist groups in Greater Syria Iraq and Hijaz Arabs who began to rally behind the Hashemite banner of Abdullah and Faisal sons of Sharif Hussein bin Ali Al Hashemi The movement began when the Arabs took the Port of Aqaba in what is now a large city in Southern Jordan While the colonial powers denied the Arabs their promised single unified Arab state it is nevertheless testimony to the effectiveness of the Great Arab Revolution that the Hashemite family was able to secure an Arab rule over Transjordan Syria Iraq and Arabia This revolution included Arabs from all the Arab land because of their nationalism and mutual unity to kicking the Turks out On June 10 1916 Grand Sharif Hussein raised his rifle on his balcony in Mecca and fired the first shot of the Great Arab Revolution Hussein's own sons became field commanders and the revolution spread across the Arabian Peninsula The Turkish garrison in Mecca fell to the Arabs within weeks as did the port of Jeddah with the assistance of the British navy Several other small towns in the Hejaz quickly fell But by September the Revolution was losing steam The rifles sent by the British were antiquated and the Arabs lacked artillery The Turks had reorganized themselves and were resisting in Medina while successfully counter attacking Hejaz from the north Hussein's son Abdullah was courted by the British in Cairo in early 1914 which resulted in a busy exchange of letters between the Grand Sharif and Sir Henry McMahon the British High Commissioner in Egypt then In December 1915 Abdullah was informed that he may rest assured that Great Britain has no intention of concluding any peace in terms of which the freedom of the Arab people from German and Turkish domination does not form an essential condition Unfortunately he took Britain at their word

**Bending History** Martin S. Indyk, Kenneth G. Lieberthal, Michael E. O'Hanlon, 2012-02-24 By the time of Barack Obama's inauguration as the 44th president of the United States he had already developed an ambitious foreign policy vision By his own account he sought to bend the arc of history toward greater justice freedom and peace within a year he was awarded the Nobel Peace Prize largely for that promise In *Bending History* Martin Indyk Kenneth Lieberthal and Michael O'Hanlon measure Obama not only against the record of his predecessors and the immediate challenges of the day but also against his own soaring rhetoric and inspiring goals *Bending History* assesses the considerable accomplishments as well as the failures and seeks to explain what has happened Obama's best work has been on major and pressing foreign policy challenges counterterrorism policy including the daring raid that eliminated Osama bin Laden the reset with Russia managing the increasingly significant relationship with China and handling the rogue states of Iran and North Korea Policy on resolving the Israeli Palestinian conflict however has reflected serious flaws in both strategy and execution Afghanistan policy has been plagued by inconsistent messaging and teamwork On important softer security

issues from energy and climate policy to problems in Africa and Mexico the record is mixed As for his early aspiration to reshape the international order according greater roles and responsibilities to rising powers Obama s efforts have been well conceived but of limited effectiveness On issues of secondary importance Obama has been disciplined in avoiding fruitless disputes as with Chavez in Venezuela and Castro in Cuba and insisting that others take the lead as with Qaddafi in Libya Notwithstanding several missteps he has generally managed well the complex challenges of the Arab awakenings striving to strike the right balance between U S values and interests The authors see Obama s foreign policy to date     Bending History Martin Indyk,Kenneth Lieberthal,Michael E. **Student Diversity at the Big Three** Marcia Synnott,2017-09-08 Strengthening affirmative action programs and fighting discrimination present challenges to America s best private and public universities US college enrollments swelled from 2.6 million students in 1955 to 17.5 million by 2005 Ivy League universities specifically Harvard Yale and Princeton face

significant challenges in maintaining their professed goal to educate a reasonable number of students from all ethnic racial religious and socio economic groups while maintaining the loyalty of their alumni College admissions officers in these elite universities have the daunting task of selecting a balanced student body Added to their challenges the economic recession of 2008 2009 negatively impacted potential applicants from lower income families Evidence suggests that high Standard Aptitude Test SAT scores are correlated with a family s socioeconomic status Thus the problem of selecting the best students from an ever increasing pool of applicants may render standardized admissions tests a less desirable selection mechanism The next admissions battle may be whether well endowed universities should commit themselves to a form of class based affirmative action in order to balance the socioeconomic advantages of well to do families Such a policy would improve prospects for students who may have ambitions for an education that is beyond their reach without preferential treatment As in past decades admissions policies may remain a question of balances and preferences Nevertheless the elite universities are handling admission decisions with determination and far less prejudice than in earlier eras      *Resistance and Accountability* Cheryl R. Lehman, 2020-10-27 How do public spaces generate accountability and advance social equity Stimulating the conversation this volume explores the creation of meaning the increasing confrontation between regulators and the community they are purported to serve and the prevalent conflicts in seeking a balancing of social and economic interests
