The English Boccaccio Guyda Armstrong, 2013-01-01 The Italian author Giovanni Boccaccio has had a long and colourful history in English translation This new interdisciplinary study presents the first exploration of the reception of Boccaccio's writings in English literary culture tracing his presence from the early fifteenth century to the 1930s Guyda Armstrong tells this story through a wide ranging journey through time and space from the medieval reading communities of Naples and Avignon to the English court of Henry VIII from the censorship of the Decameron to the Pre Raphaelite Brotherhood from the world of fine press printing to the clandestine pornographers of 1920s New York and much more Drawing on the disciplines of book history translation studies comparative literature and visual studies the author focuses on the book as an object examining how specific copies of manuscripts and printed books were presented to an English readership by a variety of translators Armstrong is thereby able to reveal how the medieval text in translation is remade and re authorized for every new generation of readers Publisher's description *The Syntax of Nonsententials* Ljiljana Progovac, Kate Paesani, Eugenia Casielles, Ellen Barton, 2006-09-13 This volume brings the data that many in formal linguistics have dismissed as peripheral straight into the core of syntactic theory By bringing together experts from syntax semantics pragmatics philosophy of language language acquisition aphasia and pidgin and creole studies the volume makes a multidisciplinary case for the existence of nonsententials which are analyzed in various chapters as root phrases and small clauses Me Me First Him worry Class in session and whose distinguishing property is the absence of Tense and with it any syntactic phenomena that rely on Tense including structural Nominative Case Arguably the lack of Tense specification is also responsible for the dearth of indicative interpretations among nonsententials as well as for their heavy reliance on pragmatic context So pervasive is nonsentential speech across all groups including normal adult speech that a case can be made that continuity of grammar lies in nonsentential rather than sentential speech **Italian Literature since 1900 in English Translation** Robin Healey, 2019-03-14 Providing the most complete record possible of texts by Italian writers active after 1900 this annotated bibliography covers over 4 800 distinct editions of writings by some 1 700 Italian authors Many entries are accompanied by useful notes that provide information on the authors works translators and the reception of the translations This book includes the works of Pirandello Calvino Eco and more recently Andrea Camilleri and Valerio Manfredi Together with Robin Healey's *Italian Literature before 1900 in English Translation* also published by University of Toronto Press in 2011 this volume makes comprehensive information on translations from Italian accessible for schools libraries and those interested in comparative literature *Pound's Cavalcanti* David Anderson, 2014-07-14 This book makes available the entire range of Ezra Pound's studies and translations of the technically complex philosophical poems of the thirteenth century Florentine Guido Cavalcanti Dante's first friend and artistic rival Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished

Borges, Second Edition Lisa Block de Behar, 2014-03-11 Borges cites innumerable authors in the pages making up his life's work and innumerable authors have cited and continue to cite him More than a figure then the quotation is an integral part of the fabric of his writing a fabric made anew by each reading and each re citation it undergoes in the never ending throes of a work in progress Block de Behar makes of this reading a plea for the very art of communication a practice that takes community not in the totalized and totalizable soil of pre established definitions or essences but on the ineluctable repetitions that constitute language as such and that guarantee the expansiveness through etymological coincidences of meaning through historical contagions through translinguistic sharings of particular experiences of a certain index of universality This edition includes a new introduction by the author and three entirely new chapters as well as updated images and corrections to the original translation

Philosophy of Marketing Matteo Giannasi, Francesco Casarin, 2021-09-27 How can we overcome the rapidly ageing postmodernist paradigm which has become sterile orthodoxy in marketing This book answers this crucial question using fresh philosophical tools developed by New Realism It indicates the opportunities missed by marketing due to the pervasive postmodernist ideology and proposes a new and fruitful approach pivoting on the significance of reality to marketing analyses and models Intensifying reference to reality will boost marketing research and practice rather than impair them conversely neglecting such a reference will prevent marketing from realising its full potential in several contexts The aim of the book is foundational its purpose is not a return to traditional realism but to break new ground and overcome theoretical obstacles in marketing and management by revising some of their assumptions and enriching their categories thereby paving the way to fresh approaches and methodological innovations In that sense the book encourages theoretical innovation and experimentation and introduces new concepts like invitation and attrition which can find fruitful applications in marketing theory and practice That is meant to be conducive to the solution of important difficulties and to the uncovering of new phenomena The last chapter of the book applies the new approach to eight case studies from business contexts This book will be of interest to philosophers interested in New Realism and to researchers scholars and marketing professionals sensitive to the importance and fruitfulness of reference to reality for their own purposes
