understanding of how to manage cultural and creative organisations more effectively **Live Literature** Ellen Wiles, 2021-05-21 This ground breaking book explores the phenomenal growth of live literature in the digitalizing 21st century Wiles asks why literary events appeal and matter to people and how they can transform the ways in which fiction is received and valued Readers are immersed in the experience of two contrasting events a major literary festival and an intimate LGBTQ salon Evocative scenes and observations are interwoven with sharp critical analysis and entertaining conversations with well known author performers reader audiences producers critics and booksellers Wiles s experiential literary ethnography represents an innovative and vital contribution not just to literary research but to research into the value of cultural experience across art forms This book probes intersections between readers and audiences writers and performers texts and events bodies and memories and curation and reception It addresses key literary debates from cultural appropriation to diversity in publishing the effects of social media and the quest for authenticity It will engage a broad audience from academics and producers to writers and audiences **The Garland Handbook of African Music** Ruth M. Stone, 2010-04-02 The Garland Handbook of African Music is comprised of essays from The Garland Encyclopedia of World Music Volume 1 Africa 1997 Revised and updated the essays offer detailed regional studies of the different musical cultures of Africa and examine the ways in which music helps to define the identity of this particular area Part One provides an in depth introduction to Africa Part Two focuses on issues and processes such as notation and oral tradition dance in communal life and intellectual property Part Three focuses on the different regions countries and cultures of Africa with selected regional case studies The second edition has been expanded to include exciting new scholarship that has been conducted since the first edition was published Questions for Critical Thinking at the end of each major section guide and focus attention on what musical and cultural issues arise when one studies the music of Africa issues that might not occur in the study of other musics of the world An accompanying audio compact disc offers musical examples of some of the music of Africa *Berber Culture on the World Stage* Jane E. Goodman, 2005-11-03 Annotation Explores Berber cultural identity and performance in Algeria France and on the world music scene *The Festival Cities of Edinburgh and Adelaide* Sarah Thomasson, 2022-08-20 The Festival Cities of Edinburgh and Adelaide examines how these cities world famous arts events have shaped and been shaped by their long term interaction with their urban environments While the Edinburgh International Festival and Adelaide Festival are long established prestigious events that champion artistic excellence they are also accompanied by the two largest open access fringe festivals in the world It is this simultaneous staging of multiple events within Edinburgh s Summer Festivals and Adelaide s Mad March that generates the visibility and festive atmosphere popularly associated with both places Drawing on perspectives from theatre studies and cultural geography this book interrogates how the Festival City as a place myth has developed in the very different local contexts of Edinburgh and Adelaide and how it is challenged by groups competing for the right to use and define public space Each chapter examines a

recent performative event in which festival debates and controversies spilled out beyond the festival space to activate the public sphere by intersecting with broader concerns and audiences This book forges an interdisciplinary comparative framework for festival studies to interrogate how festivals are embedded in the social and political fabric of cities and to assess the cultural impact of the festivalisation phenomenon
