Anthropocene Fictions Adam Trexler, 2015-04-20 Since the Industrial Revolution humans have transformed the Earth s atmosphere committing our planet to more extreme weather rising sea levels melting polar ice caps and mass extinction This period of observable human impact on the Earth s ecosystems has been called the Anthropocene Age The anthropogenic climate change that has impacted the Earth has also affected our literature but criticism of the contemporary novel has not adequately recognized the literary response to this level of environmental crisis Ecocriticism s theories of place and planet meanwhile are troubled by a climate that is neither natural nor under human control *Anthropocene Fictions* is the first systematic examination of the hundreds of novels that have been written about anthropogenic climate change Drawing on climatology the sociology and philosophy of science geography and environmental economics Adam Trexler argues that the novel has become an essential tool to construct meaning in an age of climate change

The novel expands the reach of climate science beyond the laboratory or model turning abstract predictions into subjectively tangible experiences of place identity and culture Political and economic organizations are also being transformed by their struggle for sustainability In turn the novel has been forced to adapt to new boundaries between truth and fabrication nature and economies and individual choice and larger systems of natural phenomena Anthropocene Fictions argues that new modes of inhabiting climate are of the utmost critical and political importance when unprecedented scientific consensus has failed to lead to action Under the Sign of Nature Explorations in Ecocriticism *The Oxford Handbook of Modern Irish Fiction* Liam Harte,2020-10-15 The Oxford Handbook of Modern Irish Fiction presents authoritative essays by thirty five leading scholars of Irish fiction They provide in depth assessments of the breadth and achievement of novelists and short story writers whose collective contribution to the evolution and modification of these unique art forms has been far out of proportion to Ireland s small size The volume brings a variety of critical perspectives to bear on the development of modern Irish fiction situating authors texts and genres in their social intellectual and literary historical contexts The Handbook s coverage encompasses an expansive range of topics including the recalcitrant atavisms of Irish Gothic fiction nineteenth century Irish women s fiction and its influence on emergent modernism and cultural nationalism the diverse modes of irony fabulism and social realism that characterize the fiction of the Irish Literary Revival the fearless aesthetic radicalism of James Joyce the jolting narratological experiments of Samuel Beckett Flann O Brien and M irt n Cadhain the fate of the realist and modernist traditions in the work of Elizabeth Bowen Frank O Connor Se n O Faol in and Mary Lavin and in that of their ambivalent heirs Edna O Brien John McGahern and John Banville the subversive treatment of sexuality and gender in Northern Irish women s fiction written during and after the Troubles the often neglected genres of Irish crime fiction science fiction and fiction for children the many hued novelistic responses to the experiences of famine revolution and emigration and the variety and vibrancy of post millennial fiction from both parts of Ireland Readably written and employing a wealth of original research The Oxford Handbook of Modern Irish Fiction illuminates a distinguished literary tradition that has altered the shape of world literature

Historical Dictionary of Science Fiction in Literature M. Keith Booker,2014-10-01 The Historical Dictionary of Science Fiction in Literature is a useful reference to the broad and burgeoning field of science fiction literature Science fiction literature has gained immensely in critical respect and attention while maintaining a broad readership However despite the fact that it is a rapidly changing field contemporary science fiction literature also maintains a strong sense of its connections to science fiction of the past which makes a historical reference of this sort particularly valuable as a tool for understanding science fiction literature as it now exists and as it has evolved over the years The Historical Dictionary of Science Fiction in Literature covers the history of science fiction in literature through a chronology an introductory essay and an extensive bibliography The dictionary section has over 300 cross referenced entries including significant people themes critical issues and the most significant genres that have formed science fiction literature This book

is an excellent access point for students researchers and anyone wanting to know more about this subject The Political Economy of the 2014-2020 Common Agricultural Policy Johan F.M. Swinnen, 2015-07-30 After five years of debates consultations and negotiations the European institutions reached an agreement in 2013 on the Common Agricultural Policy CAP for the 2014 2020 period The outcome has major implications for the EU s budget and farmers incomes but also for Europe s environment its contribution to global climate change and to food security in the EU and in the world It was decided to spend more than 400 billion during the rest of the decade on the CAP The official claims are that the new CAP will take better account of society s expectations and lead to far reaching changes by making subsidies fairer and greener and making the CAP more efficient It is also asserted that the CAP will play a key part in achieving the overall objective of promoting smart sustainable and inclusive growth However there is significant scepticism about these claims and disappointment with the outcome of the decision making the first in which the European Parliament was involved under the co decision procedure In contrast to earlier reforms where more substantive changes were made to the CAP the factors that induced the policy discussions in 2008 13 and those that influenced the decision making did not reinforce each other On the contrary they sometimes counteracted one another yielding an imperfect storm as it were resulting in more status quo and fewer changes This book discusses the outcome of the decision making and the factors that influenced the policy choices and decisions It brings together contributions from leading academics from various disciplines and policy makers and key participants in the process from the European Commission and the European Parliament New Directions in Children's Gothic Anna

Jackson, 2017-03-27 Children s literature today is dominated by the gothic mode and it is in children s gothic fictions that we find the implications of cultural change most radically questioned and explored This collection of essays looks at what is happening in the children s Gothic now when traditional monsters have become the heroes when new monsters have come into play when globalisation brings Harry Potter into China and yaoguai into the children s Gothic and when childhood itself and children s literature as a genre can no longer be thought of as an uncontested space apart from the debates and power struggles of an adult domain We look in detail at series such as The Mortal Instruments Twilight Chaos Walking The Power of Five Skulduggery Pleasant and Cirque du Freak at novels about witches and novels about changelings at the Gothic in China Japan and Oceania and at authors including Celia Rees Frances Hardinge Alan Garner and Laini Taylor amongst many others At a time when the energies and anxieties of children s novels can barely be contained anymore within the genre of children s literature spilling over into YA and adult literature we need to pay attention Weird things are happening and they matter

Media and Gender

Adaptation Lucy Irene Baker, 2023-01-26 Media and Gender Adaptation examines how fans and professionals change the gender of characters when they adapt existing work Using research into fans and case studies on Sherlock Holmes Ghostbusters and Doctor Who it illustrates the foundation of the process and ways the works engage with and critique media and gender at a political level The default maleness of narratives in media are reworked to be inclusive of other points of view Regendering as an adaptational technique relies on audience familiarity with existing works however it also reveals an increasing trend in aggressive backlash against interpretations of media that include marginalised and minority communities Combining analysis of fanfiction television and big budget Hollywood productions Media and Gender Adaptation also analyses fan responses to regendering in popular media Through demographic surveys and interviews with fans creators and broader audiences a combination of playful and serious attitudes to gender are revealed to be part of how transformative fans professional or not adapt work Specific fanfiction examples are analysed alongside professional works to reveal the depth and breadth of fannish play in regendered work and the constraints that professional adaptations are held to It also reveals a schism in audiences and those researching media where the intersection of gender and race are sites of tension nostalgia combining with expected representation of gender and race to create an aggressive defence of an original work that reiterates the mainstream hierarchies of gender and race
