Children's Competencies Development in the Home Learning Environment Frank Niklas, Caroline Cohrssen, Simone Lehl, Amy R. Napoli, 2021-08-02 *Effectiveness of teachers' guides in the Global South* Benjamin Piper, Yasmin Sitabkhan, Jessica Mejia, Kellie Betts, 2018-05-10 This report presents the results of RTI International Education's study on teachers guides across 13 countries and 19 projects Using quantitative and qualitative methods we examine how teachers guides across the projects differ and find substantial variation in the design and structure of the documents We develop a scripting index so that the scripting levels of the guides can be compared across projects The impact results of the programs that use teachers guides show significant impacts on learning outcomes associated with approximately an additional half year of learning showing that structured teachers guides contribute to improved learning outcomes During observations we find that teachers make a variety of changes in their classroom instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The

key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide **APAIS, Australian Public Affairs Information Service** ,1998 Vol for 1963 includes section Current Australian serials a subject list **The National union catalog, 1968-1972** ,1973

The 2010 Meltdown Edward E. Gordon,2005-09-30 This is an indictment of current management and education practices that are creating a shortage of skilled labour The march of technological development and globalisation continues to put pressure on all national economies bringing opportunity for some and marginalisation for others Nations will need to confront two coming economic shocks a rise in the retired population and a shortage of young well educated people to fill a rising number of highly skilled technology related jobs Ed Gordon marshals vast amounts of data to illustrate how these trends are quickly converging creating a labour vacuum with potentially disastrous consequences In *The 2010 Meltdown* Gordon sounds a wake up call to anyone with a stake in our economic future Beyond the demographic issues he notes that such cultural factors as Wall Street s obsession with short term results and the neglect of maths and science skills at school are contributing to a fundamental mismatch between labour supply and demand But the news is not all grim Gordon highlights innovative initiatives in training education and community development in the U S and around the world that can serve as models for positive **Resources in Education** ,1997 *The Mathematics Teacher* ,1955 **Linguistics and Language Behavior Abstracts** ,2006 **National Union Catalog** ,1973 *ERIC Educational Documents Index, 1966-1969: Minor descriptors.
