

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been
creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math
homework so mystifying their parents could not help them even in elementary school They read motley assortments of
informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly
controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the
radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big
tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos
and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how
the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal
prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game
changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a
costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance
in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments
of emboldened bureaucrats The Education Invasion offers answers and remedies Teaching Mathematics Creatively Linda

2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do
