Grade 1 November 2013 Memo Alex Sciences Department:

Taking Down the Lion Catherine S. Neal, 2014-01-07 *Taking Down the Lion* offers an inside look at the career of Tyco's most infamous CEO and what exactly brought him down so publicly. As the widely admired CEO of Tyco International, Dennis Kozlowski grew a little-known New Hampshire conglomerate into a global giant. In a stunning series of events, Kozlowski suddenly lost his job along with his favored public status when he was indicted by legendary Manhattan DA Robert Morgenthau. It was an inglorious end to an otherwise brilliant career. Kozlowski was the face of corporate excess in the turbulent post-Enron environment; he was pictured under headlines that read "Oink Oink" and publicly castigated for his extravagant lifestyle. Deal a Day: Dennis was transformed into the poster child for corporate greed. Kozlowski was ultimately convicted of grand larceny and other crimes that in sum found the former CEO guilty of wrongfully taking 100 million from Tyco. *Taking Down the Lion* shines a bright light on former CEO Dennis Kozlowski and the Tyco corporate scandal. It is the definitive telling of a largely misunderstood episode in U.S. business history. In an unfiltered view of corporate America, Catherine S. Neal pulls back the curtain to reveal a world of big business ambition, money, and an epidemic of questionable ethics that infected not only business dealings but extended to attorneys, journalists, politicians, and the criminal justice system. When the ugly truth is told, it's clear the good guys were not all good and the bad guys not all bad. And there were absolutely no heroes.

The Struggle for Change Marvin T. Chiles, 2023-12-28 A Black majority city with a history of the most severe segregation and inequity, Richmond is still grappling with this legacy as it moves into the twenty-first century. Marvin Chiles now offers a unique take on Richmond's racial politics since the civil rights era by demonstrating that the city's current racial disparities in economic mobility, housing, and public education actually represent the unintended consequences of Richmond's racial reconciliation measures. He deftly weaves municipal politics together with grassroots efforts, examining the work and legacies of Richmond's Black leaders from Henry Marsh on the city council in the 1960s to Mayor Levar Stoney to highlight the urban revitalization and public history efforts meant to overcome racial divides after Jim Crow, yet which ironically reinforced racial inequality across the city. Compellingly written, this project carries both local and broader regional significance for Richmonders, Virginians, southerners, and all Americans.

After the Education Wars Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers. *After the Education Wars* helps us to see a better way forward. Cathy N. Davidson, *The New York Times Book Review*. *After the Education Wars* is an important book that points the way to genuine reform. Diane Ravitch, author of *Reign of Error* and *The Death and Life of the Great American School System*. A bestselling business journalist critiques the top-down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler, more democratic entrepreneurialism. In an entirely fresh take on school reform, business journalist and bestselling author Andrea Gabor argues that Bill Gates, Eli Broad, and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world. *After the Education*

Wars explains how the market based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well. These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements. The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life. A welcome exception to the doom and gloom canon of education reform. After the Education Wars makes clear that what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools.

Spying from the Sky Robert L. Richardson, 2020-03-31 The must read story of America's first high altitude aviation program and one of its pilots Francis Gary Powers Jr. William Greg Gregory was born into a sharecropper's life in the hills of North Central Tennessee. From the back of a mule drawn plow Greg learned the value of resilience and the importance of determined living. Refusing to accept a life of poverty he found a way out a work study college program that made it possible for him to leave farming behind forever. While at college Greg completed the Civilian Pilot Training Program and was subsequently accepted into the US Army's pilot training program. Earning his wings in 1942 he became a P-38 combat pilot and served in North Africa during the summer of 1943 a critical time when the Luftwaffe was still a potent threat and America had begun the march northward from the Mediterranean into Europe proper. Following the war Greg served with a B-29 unit then transitioned to the new red hot B-47 strategic bomber. In his frequent deployments he was always assigned the same target in the Soviet Union Joseph Stalin's hometown of Tbilisi. While a B-47 pilot Greg was selected to join America's first high altitude program the Black Knights Flying RB-57D aircraft he and his team flew peripheral ferret missions around the Soviet Union and its satellites collecting critical order of battle data desperately needed by the US Air Force at that time. When the program neared its design end and following the Gary Powers shoot down over the Soviet Union Greg was assigned to command of the CIA's U-2 unit at Edwards AFB. Over this five year command he and his team provided critical overflight intelligence during the Bay of Pigs the Cuban Missile Crisis the Vietnam buildup and more. He also became one of the first pilots to fly U-2s off aircraft carriers in a demonstration project. *Spying from the Sky* is the in depth biography of William Gregory who attended the National War College was assigned to the reconnaissance office at the Pentagon and was named vice commandant of the Air Force Institute of Technology AFIT before retiring from the force in 1972. **Guide to U.S. Economic Policy** Robert E. Wright, Thomas W. Zeiler, 2014-06-30 *Guide to U.S. Economic Policy* shows students and researchers how issues and actions are translated into public policies for resolving economic problems like the Great Recession or managing economic conflict like the left-right ideological split over the role of government regulation in markets.
