

1.2 The History of Sociology

- Comte named the scientific study of social patterns **positivism**.
- He described his philosophy in a series of books called *The Course in Positive Philosophy* (1830–1842) and *A General View of Positivism* (1848).
- He believed that using scientific methods to reveal the laws by which societies and individuals interact would usher in a new “positivist” age of history.
- While the field and its terminology have grown, sociologists still believe in the positive impact of their work.
