Salamone, 2012-11-08 On October 15 1964 Billy Mills became the only American to win an Olympic Gold Medal for the 10 000 meters It was but one notable triumph in sports by a Native American Yet unlike Mills's achievement most significant contributions from Native Americans have gone unheralded From individual athletes teams and events it is clear that the Vanishing Americans are not vanishing but they are sadly overlooked The Native American Identity in Sports Creating and Preserving a Culture not only includes but goes beyond the great achievements of Billy Mills to note numerous other instances of Native American accomplishment and impact on sports This collection of essays examines how sport has contributed to shaping and expressing Native American identity from the attempt of the old Indian Schools to Americanize Native Americans through sport to the Indian mascot controversy and what it says about the broader public view of Native Americans Additional essays explore the contemporary use of the traditional sport Toka to combat obesity in some Native American communities the Seminoles commercialization of alligator wrestling a Native sport that was in fact only developed as a sport due to interest from tourists and much more The contributions to this volume not only tell the story of Native Americans participation in the world of sports but also how Native Americans have changed and enriched the sports world in the process For anyone interested in the deep effect sport has on culture The Native American Identity in Sports is an indispensable read *Western Kentucky University* Lowell H. Harrison, 2021-12-14 Most Hilltoppers believe that Western

Kentucky University is unique They take pride in its lovely campus its friendly spirit the loyalty of its alumni and its academic and athletic achievements But Western's development also illustrates a major trend in American higher education during the past century Scores of other institutions have followed the Western pattern growing from private normal school to state normal school to teachers college to general college finally emerging as an important state university Historian Lowell

Harrison traces the Western story from the school's origin in 1875 to the January 1986 election of its seventh president. For much of its history, Western has been led by paternalistic presidents whose major battles have been with other state schools and parsimonious legislatures. In recent years, the presidents have been challenged by students and faculty who have demanded more active roles in university governance and by a Board of Regents and the Council on Higher Education which have raised challenging new issues. Harrison's account of the institution's development is laced with anecdotes and vignettes of some of the school's interesting personalities: President Henry Hardin Cherry whose chapel talks convinced countless students that the Spirit Makes the Master; Uncle Ed Diddle whose flying towel and winning teams earned national basketball fame; Daddy Burton who could catch flies while lecturing; Miss Gabie Robertson who held students into the next class period; the lone Japanese student who was on campus during World War II. Harrison also recalls steamboat excursions, the Great Depression and the Second World War, the astounding boom in enrollment and buildings in the 1960s, the period of student unrest and the numerous fiscal crises that have beset the school. This is the story of an institution proud of its past and seeking to chart its course into the twenty-first century.

The Anchor of Delta Gamma Spring 1975, **The Bicentennial of the United States of America** American Revolution Bicentennial Administration, 1977 Ghosts across Kentucky William Montell, 2010-09-12 Lynwood Montell has collected ghost tales all over the state of Kentucky from coal mining settlements to river landings from highways to battlefields. He presents these suspense-filled stories just as he first heard or read them as bona fide personal experiences or as events witnessed by family members or friends. There are over 250 stories in *Ghosts across Kentucky* that are set in specific places and times. They include tales of graveyards, haunted dormitories, animal ghosts, and vanishing hitchhikers. Montell describes weird lights, unexplained sounds, felt presences, and disappearing apparitions. Phantom workmen, fallen soldiers, young lovers, and executed criminals appear in these pages along with the living who chance upon them. Though the focus is on the stories themselves, Montell also includes a chapter explaining our fascination with the supernatural and the deep truths these storytelling traditions reveal about our lives and our pasts. William Lynwood Montell, emeritus professor of folk studies at Western Kentucky University, is the author of several books, including *Killings*. **The Principal's Desk Reference to Professional Standards** Robyn Conrad Hansen, Frank D.
