Rightwing Extremism: Current Economic and Political Climate Fueling Resurgence in Radicalization and Recruitment

DHS Field Agent Guide: 10 tips for spotting a radical right-winger

1. Subject describes him/herself as "pro-choice" and demonstrates an unhealthy pre-occupation with "saving the lives of babies." Often hallucinates of UVTM's (unviable tissue masses) as if they're real human beings, often deluding him/herself into believing that preventing intact dilation and evacuation (subject may refer to this as "abortion") is "God's will." Approach with extreme caution.
2. Demonstrates an extremely excessive amount of pride in Texas.
3. Has volunteered to "throw the switch" at a number of electric chair criminal executions and often brags about this fact (see #2)
4. Has served overseas or domestically in the U.S. military in operations ordered by then rogue U.S. President Bush, or has provided support for same. May grow "unstable" due to right-wing brainwash techniques that have many troops convinced that their sacrifices in Iraq were futile just because members of Congress said we lost and President Obama said we shouldn't be there.
5. Over-possessive feelings for the United States which leads to illegal immigrant oppression. May make overzealous statements in a paranoid, selfish fashion, such as "my country," "my flag" or "my wallet."
6. Unhealthy pre-occupation with national debt and tax rates. Members of the radical right suffer from the delusion that the money they have belongs to them. A complete thoughtlessness toward communities and their organizers is common among the radical right.
7. Refers to individual known as "The Nuge" more than three times in a single casual conversation and knows more than five jokes by Larry the Cable Guy.
8. Subject shows extreme irritation when confronted with the fact that if they didn't vote for President Obama, there's a better than 80% chance they're racist.
9. Shows undue concern for financial and physical well-being of their "children" -- a term which is merely radical-right code for future generations of radical right wing activists.
10. Mention the words "tea" or "party" at any point while under surveillance.

Homeland Security James J. F. Forest, 2006-06-30 America is a target the homeland is under threat While Americans have been targets of terrorist attacks for quite some time September 11 2001 awoke the nation to the reality that we are vulnerable in our homes our places of work and worship and our means of public transportation And yet we must continue to function as best we can as the world's most vibrant economic and political community The current threat environment requires greater engagement with the public as the necessary eyes and ears of the nation's homeland security infrastructure However to be effective the public must be equipped with the knowledge of where and why specific locations and activities may be a terrorist target what is being done to protect those targets and how they can help This three volume set answers that need The chapters of each volume of Homeland Security revolve around a core of central questions Are we safer today than we were pre 9 11 What steps have been taken in all these areas to protect ourselves What are the threats we face and what new threats have developed since 9 11 Are we staying one step ahead of those who wish to do us harm In 2002 more than 400 million people 122 million cars 11 million trucks 2.4 million freight cars and 8 million containers entered the United States Nearly 60 000 vessels entered the United States at its 301 ports of entry Clearly the amount of activity this represents will require a long term commitment to innovation organizational learning and public vigilance to complement an already overstretched network of government agencies and security professionals

End of Discussion Mary Katharine Ham, Guy Benson, 2017-08-01 With a new foreword for the paperback edition reflecting Trump's election and the recent uproar surrounding right leaning speakers on college campuses this unapologetic conservative duo featured on FOX News Townhall The Federalist and CNN combat the silencing of free speech in America They're trying to silence you But don't let them dictate the End of Discussion In the age

of Trump a prejudice against free speech is spreading fueled by a growing movement that believes ideas must be squelched to protect people The presidential election of 2016 should have been the clearest sign yet to the Left that trying to convince half the country to shut up is not the same as actually convincing them And yet in its wake the impulse to stifle and punish incorrect viewpoints and the deplorables who voice them is alive and well It s a vicious and ironic cycle especially in academia where dissenting speech is deemed dangerous and equated to violence while actual violence is justified to bully its proponents From Berkeley to Middlebury the mob is on the march Free speech isn t always pretty but it s vital to the American way We have to make America talk again End of Discussion arms readers to find their voices and fight back against the death of debate

Muslims in a Post-9/11 America Rachel M. Gillum,2018-07-27 Muslims in a Post 9 11 America examines how public fears about Muslims in the United States compare with the reality of American Muslims attitudes on a range of relevant issues While most research on Muslim Americans focuses on Arab Muslims a quarter of the Muslim American population Rachel Gillum includes perspectives of Muslims from various ethnic and national communities from African Americans to those of Pakistani Iranian or Eastern European descent Using interviews and one of the largest nationwide surveys of Muslim Americans to date Gillum examines more than three generations of Muslim American immigrants to assess how segments of the Muslim American community are integrating into the U S social fabric and how they respond to post 9 11 policy changes Gillum s findings challenge perceptions of Muslims as a homogeneous isolated un American and potentially violent segment of the U S population Despite these realities negative political rhetoric around Muslim Americans persists The findings suggest that the policies designed to keep America safe from terrorist attacks may have eroded one of law enforcement s greatest assets in the fight against violent extremism a relationship of trust and goodwill between the Muslim American community and the U S government Gillum argues for policies and law enforcement tactics that will bring nuanced understandings of this diverse category of Americans and build trust rather than alienate Muslim communities

Committee on Homeland Security and Governmental Affairs,2011 **America's Secret Jihad** Stuart Wexler,2016-06-14 The conventional narrative concerning religious terrorism inside the United States says that the first salvo occurred in 1993 with the first attack on the World Trade Center in New York City This narrative has motivated more than a decade of wars and re prioritized America s domestic security and law enforcement agenda But the conventional narrative is wrong A different group of jihadists exists within US borders This group has a long but hidden history is outside the purview of public officials and has an agenda as apocalyptic as anything Al Qaeda has to offer Radical sects of Christianity have inspired some of the most grotesque acts of violence in American history the 1963 Birmingham Church bombing that killed four young girls the Mississippi Burning murders of three civil rights workers in 1964 the assassination of Martin Luther King Jr in 1968 the Atlanta Child Murders in the late 1970s and the Oklahoma City Bombing in 1995

America's Secret Jihad uses these crimes to tell a story that has not been told before. Expanding upon the author's groundbreaking work on the Martin Luther King Jr. murder and through the use of extensive documentation never before released interviews and a re-interpretation of major events, America's Secret Jihad paints a picture of Christian extremism and domestic terrorism as it has never before been portrayed. Encountering extremism Alice Martini, Kieran Ford, Richard Jackson, 2020-08-18. Countering extremism is starting to receive more attention as a subject of research in academia and policy circles alike, demonstrating its rising popularity within the market. Nevertheless, the market currently lacks literature on the topic of extremism as opposed to terrorism and critical approaches in particular. This book brings together a set of scholars from a diverse range of countries, experts in many fields of social sciences, to present valuable multidisciplinary analysis of both theoretical and practical aspects related to countering extremism. It will thus be of interest for scholars and students of the following disciplines among others: Anthropology, Comparative Politics, Criminology, Education Studies, Gender Studies, International Relations, Post-colonial Studies, Peace Studies, Sociology, Subaltern Studies, Terrorism Studies.
