**Book Wars** John B. Thompson,2021-03-04 This book tells the story of the turbulent decades when the book publishing industry collided with the great technological revolution of our time From the surge of ebooks to the self publishing explosion and the growing popularity of audiobooks Book Wars provides a comprehensive and fine grained account of technological disruption in one of our most important and successful creative industries Like other sectors publishing has been thrown into disarray by the digital revolution The foundation on which this industry had been based for 500 years the packaging and sale of words and images in the form of printed books was called into question by a technological revolution that enabled symbolic content to be stored manipulated and transmitted quickly and cheaply Publishers and retailers found themselves facing a proliferation of new players who were offering new products and services and challenging some of their most deeply held principles and beliefs The old industry was suddenly thrust into the limelight as bitter conflicts erupted between publishers and new entrants including powerful new tech giants who saw the world in very different ways The book wars had begun While ebooks were at the heart of many of these conflicts Thompson argues that the most fundamental consequences lie elsewhere The print on paper book has proven to be a remarkably resilient cultural form but the digital revolution has transformed the industry in other ways spawning new players which now wield unprecedented power and giving rise to an array of new publishing forms Most important of all it has transformed the broader information and communication environment creating

new challenges and new opportunities for publishers as they seek to redefine their role in the digital age This unrivalled account of the book publishing industry as it faces its greatest challenge since Gutenberg will be essential reading for anyone interested in books and their future     *na* ,     Mobile Devices Ben Rawlins,2014-12-23 As more users expect to use their mobile devices librarians will want and need to develop the necessary skills to reach this growing user base Mobile Devices A Practical Guide for Librarians will aid libraries and librarians as they go through the process of planning developing implementing marketing and evaluating mobile services Based on research and experience using and developing for mobile devices this guides includes information and ideas regarding Why mobile technologies are important for librariesDeveloping mobile websites and applications for specific mobile platforms such as iOS and Android using existing web technologies such as HTML CSS and JavascriptUsing mobile devices for reference library instruction and shelf readingMarketing strategies to make users aware of mobile servicesEvaluating mobile services A must read for librarians interested in mobile technologies and services this guide provides librarians with practical information and examples to develop and offer mobile services in their libraries     Mobile Internet Monthly Newsletter June 2010 ,     Making News at The New York Times Nikki Usher,2014-04-24 An ethnographic study of The New York Times business desk provides a unique vantage point to see the future for news in the digital age     Digital Dieting Tara Brabazon,2016-04-22 Imagine if a student spent as much time managing information as celebrities doted on dieting While eating too much food may be the basis of a moral panic about obesity excessive information is rarely discussed as a crisis of a similar scale Obviously plentiful and high quality food is not a problem if eating is balanced with exercise But without the skills of media and information literacy students and citizens wade through low quality online information that fills their day yet does not enable intellectual challenge imagination and questioning Digital Dieting From Information Obesity to Intellectual Fitness probes the social political and academic difficulties in managing large quantities of low quality information But this book does not diagnose a crisis Instead Digital Dieting provides strategies to develop intellectual fitness that sorts the important from the irrelevant and the remarkable from the banal In April 2010 and for the first time Facebook received more independent visitors than Google Increasingly there is a desire to share rather than search But what is the impact of such a change on higher education If students complain that the reading is too hard then one response is to make it easier If students complain that assignments are too difficult then one way to manage this challenge is to make the assignments simpler Both are passive responses that damage the calibre of education and universities in the long term Digital Dieting From Information Obesity to Intellectual Fitness provides active conscious careful and applicable strategies to move students and citizens from searching to researching sharing to thinking and shopping to reading     Using iPhones, iPads, and iPods Matthew Connolly,Tony Cosgrave,2014-10-28 Apple Inc has sold more than 500 million iPhones iPads and iPodTouches Library patrons are increasingly coming to libraries with the expectation that their Apple devices will work flawlessly with library services or that

they can find an iPad to use at the library if they don't have one of their own. Libraries and librarians today are expected to be adept with the latest technology and to be able to apply it to popular use as well as scholarly research. Using iPhones and iPads. A Practical Guide for Librarians offers library professionals a clear path to Apple readiness. The authors, a librarian and a software developer at a prominent research library, combine their experience in library public services and mobile technology to provide easy-to-follow step-by-step instructions to help you get up to speed on ensuring that your library website and online resources are iDevice friendly. Creating a custom app for your library and making it available in iTunes. Starting an iPad lending program. Using iDevices for librarianship and library work.
