Frontier Contact Between Choson Korea and Tokugawa Japan James B. Lewis,2005-11-02 East Asia from 1400 to 1850 was a vibrant web of connections and the southern coast of the Korean peninsula participated in a maritime world that stretched to Southeast Asia and beyond Within this world were Japanese pirates traders and fishermen They brought things to the Korean peninsula and they took things away The economic and demographic structures of Kyongsang Province had deep and wide connections with these Japanese traders Social and political clashes revolving around the Japan House in Pusan reveal Korean mentalities towards the Japanese connection This study seeks to define Korea by examining its frontier with Japan The guiding problems are the relations between structures and agents and the self definitions reached by pre modern Koreans in their interaction with the Japanese Case studies range from demography to taxation to trade to politics to prostitution The study draws on a wide base of primary sources for Korea and Japan and introduces the problems that animate modern scholarship in both countries It offers a model approach for Korea's northern frontier with China and shows that the peninsula was and is a complex brocade of differing regions The book will be of interest to anyone concerned with pre 1900 East Asia Korea in particular and especially Korea's relations with the outside world Anyone interested in early

modern Japan and its external relations will also find it essential reading **Industry Week**, 1921 **Should Congress Enact Special Laws Affecting Japanese?** Sidney Lewis Gulick, 1922 **The Japan Chronicle**, 1913 **A Tour of Japan in 1920** Wilson P. Minton, 1992-01-01 A fascinating glimpse of life in Japan in 1920 as experienced through the eyes of an observant and sensitive American missionary whose travels took him beyond Tokyo to the mountainous Tohoku region and to the cities of Sendai Kobe and Osaka Vivid descriptions of life in the slums and the powerless position of women are juxtaposed with an account of a meeting with the last Shogun of Japan Conversations with a wide variety of people revealed to the Rev Minton the stirrings of war sentiment even in 1920 The photographs offer a superb visual record **Britain and Japan: Biographical Portraits, Vol. VII**, 2010-09-23 This latest volume of leading figures in the history of Anglo Japanese relations offers a classic menu of personalities themes and events in all 25 contributions Contents include the writings of the Cambridge scholar Carmen Blacker and leading historian William Beasley British military observer and Times reporter of the Russo Japanese War General Sir Ian Hamilton philosophers Arnold Toynbee Bertrand Russell and George Bernard Shaw the Chosu students Inoue Kaoru and Yamao Yozo who were later key figures in the Meiji period modernization of Japan and Walter Denning scholar and missionary Subjects treated include horse breeding and horse racing the Japanese influence on British architects the beginnings of golf in Japan and Japanese gardeners in Britain **House and Home in Modern Japan** Jordan Sand, 2020-05-11 A house is a site the bounds and focus of a community It is also an artifact a material extension of its occupants lives This book takes the Japanese house in both senses as site and as artifact and explores the spaces commodities and conceptions of community associated with it in the modern era As Japan modernized the principles that had traditionally related house and family began to break down Even where the traditional class markers surrounding the house persisted they became vessels for new meanings as housing was resituated in a new nexus of relations The house as artifact and the artifacts it housed were affected in turn The construction and ornament of houses ceased to be stable indications of their occupants social status the home became a means of personal expression and the act of dwelling was reconceived in terms of consumption Amid the breakdown of inherited meanings and the fluidity of modern society not only did the increased diversity of commodities lead to material elaboration of dwellings but home itself became an object of special attention its importance emphasized in writing invoked in politics and articulated in architectural design The aim of this book is to show the features of this culture of the home as it took shape in Japan **Hearings** United States. Congress. House. Committee on Foreign Affairs, 1925 **Russian Views of Japan, 1792-1913** David N. Wells, 2004 Before Japan was opened up in the 1850s contact with Russia as well as other western maritime nations was extremely limited Yet from the early eighteenth century onwards as a result of their expanding commercial interests in East Asia and the North Pacific Russians had begun to encounter Japanese and were increasingly eager to establish diplomatic and trading relations with Japan This book presents rare narratives written by Russians including official envoys scholars and later tourists who visited Japan

between 1792 and 1913 The introduction and notes set these narratives in the context of the history of Russo Japanese relations and the genre of European travel writing showing how the Russian writers combined ethnographic interests with the assertion of Russian and European values simultaneously inscribing power relations and negotiating cultural difference

Mid-Century Modern Interiors Lucinda Kaukas Havenhand, 2019-01-24 Mid Century Modern Interiors explores the history of interior design during arguably its most iconic and influential period The 1930s to the 1960s in the United States was a key moment for interior design It not only saw the emergence of some of interior design's most globally important designers it also saw the field of interior design emerge at last as a profession in its own right Through a series of detailed case studies this book introduces the key practitioners of the period world renowned designers including Ray and Charles Eames Richard Neutra and George Nelson and examines how they developed new approaches by applying systematic and rational principles to the creation of interior spaces It takes us into the mind of the designer to show how they each used interior design to express their varied theoretical interests and reveals how the principles they developed have become

embodied in the way interior design is practiced today This focus on unearthing the underlying ideas and concepts behind their designs rather than on the finished results creates a richer more conceptual understanding of this pivotal period in modernist design history With an extended introduction setting the case studies within the broader context of twentieth century design and architectural history this book provides both an introduction and an in depth analysis for students and scholars of interior design architecture and design history Japan Info ,2005 Frank Lloyd Wright and Japan Kevin Nute,2000 Looks at Wright s formal and philosophical debt to Japanese art and architecture Eight areas of influence are examined in detail from Japanese prints to specific individuals and publications and are illustrated with text and drawn analyses **Official Gazette of the Japanese Military Administration of the Philippines** Philippines,1942
