Largest Bony Fish on Record Found in Azores Islands, Portugal

Boaters and fishermen reported a colossal carcass of a dead fish floating in the waters near Faia Island, a part of the Azores Archipelago.

Researchers have responded to the call and when they reached the area, they identified the carcass to be of a bump-head sunfish.

The community of Faia Islands helped in removing the carcass out of the water. According to Dr. David Torres, head of the research team, the carcass weighed about 6,000 pounds, it's approximately 800 pounds heavier than the last recorded heaviest bony fish.

Dr. David Torres together with Mr. Rodrigo Peri, one of the fishermen that found the 6,000 pound sunfish carcass in Azores Islands, Portugal last December 2, 2050.

"We thought it was a whale carcass, so we were on alert that there might be a huge predator around us" remarked Mr. Peri.

Health news. 1912 ,1912 The People's News Joseph E. Uscinski,2014-02-03 Uncovers the surprising cause behind the recent rise of fake news In an ideal world journalists act selflessly and in the public interest regardless of the financial consequences However in reality news outlets no longer provide the most important and consequential stories to audiences instead news producers adjust news content in response to ratings audience demographics and opinion polls While such criticisms of the news media are widely shared few can agree on the causes of poor news quality The People s News argues that the incentives in the American free market drive news outlets to report news that meets audience demands rather than democratic ideals In short audiences opinions drive the content that so often passes off as the news The People s News looks at news not as a type of media but instead as a commodity bought and sold on the market comparing unique measures of news content to survey data from a wide variety of sources Joseph Uscinski s rigorous analysis shows news firms report certain issues over others not because audiences need to know them but rather because of market demands Uscinski also demonstrates that the influence of market demands also affects the business of news prohibiting journalists from exercising independent judgment and determining the structure of entire news markets as well as firm branding Ultimately the results of this book indicate profit motives often trump journalistic and democratic values The findings also suggest that the media actively responds to audiences thus giving the public control over their own information environment Uniting the study of media effects and media content The People s News presents a powerful challenge to our ideas of how free market media outlets meet our standards for impartiality and public service *The Power of News* Michael Schudson,1995 Some say it s simply information mirroring the world Others believe it s propaganda promoting a partisan view But news Michael Schudson tells us is really both and neither it is a form of culture complete with its own literary and social conventions and powerful in ways far more subtle and complex than its many critics might suspect A penetrating look into this culture The Power of News offers a compelling view of the news media s emergence as a central institution of modern society a key repository of common knowledge and cultural authority One of our foremost writers on journalism and mass communication Schudson shows us the news evolving in concert with American democracy and industry subject to the social forces that shape the culture at large He excavates the origins of contemporary journalistic practices including the interview the summary lead the preoccupation with the presidency and the ironic and detached stance of the reporter toward the political world His book explodes certain myths perpetuated by both journalists and critics The press for instance did not bring about the Spanish American War or bring down Richard Nixon TV did not decide the Kennedy Nixon debates or turn the public against the Vietnam War Then what does the news do True to their calling the media mediate as Schudson demonstrates He analyzes how the news by making knowledge public actually changes the character of knowledge and allows people to act on that knowledge in new and significant ways He brings to bear a wealth of historical scholarship and a keen sense for the apt
