Global James Bond Klaus Dodds,Lisa Funnell,2023-12-20 *Global James Bond Re Imagining and Transplanting a Popular Culture Icon* focuses on the ambivalent yet fascinating interplay between the global and the local in the longest running film franchise in history It explores how James Bond established itself as a global standard for action spy film making and even as a minor global cinema i e imagining and not the franchise subsequently inspired a series of genre bending blending and breaking in local visual and some literary contexts i e reimagining and transplanting The chapters in this collection consider how the world is envisaged in the official series and subsequently reinterpreted on local and regional levels and how investments with alternative meanings might run counter to the dominant representational and geo political logics of the novels and filmic texts *Global James Bond* is a starting point for further conversation and exchange over an extraordinary film franchise

Common Sense Lisa Holderman,2008-01-01 This anthology examines the constructions of intelligence and intellectuality in popular television and the socio cultural implications of those constructions It considers the complexity of popular television images the influences of these images as they both verify and vilify intelligence and explores a range of representations of intelligence on television by looking at a variety of TV genres and through a variety of theoretical perspectives and methods Topics range from broad explorations of patterned representations on television to examinations of particular genres including science fiction and reality programming to in depth analyses of specific programs such as *The Simpsons* *Buffy the Vampire Slayer* and *Six Feet*
