Mathematics and Technology Gilles Aldon,Fernando Hitt,Luciana Bazzini,Uwe Gellert,2017-04-05 This volume collects most recent work on the role of technology in mathematics education It offers fresh insight and understanding of the many

ways in which technological resources can improve the teaching and learning of mathematics The first section of the volume focuses on the question how a proposed mathematical task in a technological environment can influence the acquisition of knowledge and what elements are important to retain in the design of mathematical tasks in computing environments The use of white smart boards platforms as Moodle tablets and smartphones have transformed the way we communicate both inside and outside the mathematics classroom Therefore the second section discussed how to make efficient use of these resources in the classroom and beyond The third section addresses how technology modifies the way information is transmitted and how mathematical education has to take into account the new ways of learning through connected networks as well as new ways of teaching The last section is on the training of teachers in the digital era The editors of this volume have selected papers from the proceedings of the 65th 66th and 67th CIEAEM conference and invited the correspondent authors to contribute to this volume by discussing one of the four important topics The book continues a series of sourcebooks edited by CIEAEM the Commission Internationale pour l'étude et l'amélioration de l'Enseignement des Mathématiques International Commission for the Study and Improvement of Mathematics Education

Research for Educational Change Jill Adler, Anna Sfard, 2016-06-17 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers

and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research Commonsense Methods for Children with Special Needs and Disabilities Peter

Westwood,2020-11-25 This fully revised and updated eighth edition of Peter Westwood s book offers practical advice and strategies for meeting the challenge of inclusive teaching Based on the latest international research from the field it offers practical advice on both new and well tried evidence based approaches and strategies for teaching students with a wide range of difficulties As well as covering special educational needs learning difficulties and disabilities in detail chapters also explore topics such as self management and autonomy managing behaviour and social skills The book offers sound pedagogical practices and strategies for adapting curriculum content designing teaching materials differentiating instruction for mixed ability classes and implementing inclusive assessment of learning Key features of this new edition include Additional information on linking all aspects of teaching to a Response to Intervention Model A focus on the increasing importance of digital technology in supporting the learning of students with special educational needs and disabilities Up to date resource lists for each chapter for those who wish to pursue a particular topic in greater depth Reflecting cutting edge international research and teaching practices this is an invaluable resource for practising and trainee teachers teaching assistants and other educational professionals looking to support students with special educational needs and disabilities
