Prasad, A.R. Negandhi, 2012-12-06 That a developing economy needs management even more than resources is now becoming abundantly clear to all students of growth There was perhaps a facile assumption in the earlier years that the rate of growth in a developing country depended in almost direct proportion to two factors the resources available within the country the land water minerals savings and other relevant inputs and the initial importation of aid from without in terms of capital and skills not available within but the factor of good management was somehow ignored as also the attitudes of the people and their leadership to growth These two factors are now coming into their own as being crucial to development and there is a new appreciation of the need for a good supply of well trained managers and providing them with an environment that is permissive and encouraging These essays are a timely analysis of this new felt need and a valuable source of new leads and hypotheses for they examine the multi facets of the problem of India's growth but with keeping the professional manager squarely in the middle of the study And after all it is he upon whom the major responsibility for development and growth will depend given the chance The contributors to this symposium are seven young Indians all management educators of distinction at universities in the United States and one hopes that they will themselves pick up some of the leads and pursue them P L *Charles River* Robert Allan Hill, 2015-02-20 This collection of theological essays spiritual meditations public prayers and biblical interpretations provides a focus day by day for contemplation and reflection By intention they are offered in media res in the midst of the cacophony and chaos of life and particularly of academic life These pages are markings along the journey on the trail and thus perhaps signposts for others coming along the same way To some degree the collection responds to similar recent publication of 200 word daily selections from the writings of Dietrich Bonhoeffer The assembly of materials revisits a favorite form of an earlier Dean of Marsh Chapel Howard Thurman Thurman easily and regularly captured thought and feeling in an assortment of forms prayer sermon hymn poem litany sermon and worried very little about repetitions or the jostling inherent in formal variety Charles River follows after these and similar works and is offered as a daily resource for those receiving and offering the divine grace of freedom acceptance forgiveness pardon and love Peterson's Graduate Programs in Business, Education, Health, Information

Other Rivers Peter Hessler,2024-07-09 An intimate and revelatory account of two generations of students in China's heartland by an author who has observed the country's tumultuous changes over the past quarter century More than two decades after teaching English during the early part of China's economic boom an experience chronicled in his book River Town Peter Hessler returned to Sichuan Province to instruct students from the next generation At the same time Hessler and his wife enrolled their twin daughters in a local state run elementary school where they were the only Westerners Over the years Hessler had kept in close contact with many of the people he had taught in the 1990s By reconnecting with these individuals members of China's Reform generation now in their forties while teaching current undergrads Hessler gained a unique perspective on China's incredible transformation In 1996 when Hessler arrived in China almost all of the people in his classroom were first generation college students They typically came from large rural families and their parents subsistence farmers could offer little guidance as their children entered a brand new world By 2019 when Hessler arrived at Sichuan University he found a very different China as well as a new kind of student an only child whose schooling was the object of intense focus from a much more ambitious cohort of parents At Sichuan University many young people had a sense of irony about the regime but mostly navigated its restrictions with equanimity embracing the opportunities of China's rise But the pressures of extreme competition at scale can be grueling even for much younger children including Hessler's own daughters who gave him an intimate view into the experience at their local school In Peter Hessler's hands China's education system is the perfect vehicle for examining the country's past present and future and what we can learn from it for good and ill At a time when anti Chinese rhetoric in America has grown blunt and ugly Other Rivers is a tremendous essential gift a work of enormous empathy that rejects cheap stereotypes and shows us China from the inside out and the bottom up As both a window onto China and a mirror onto America Other Rivers is a classic from a master of the form

George and Adaurennaya C.

Onyewuenyi Mwangi, 2025 *Hidden in Blackness* analyzes the experiences, perspectives, and development of Black immigrant students while also complicating how race, ethnicity, nativity, and nationality are understood across the P-20 education landscape. The authors unpack how Blackness and anti-Black racism in the United States can foster Black immigrants becoming hidden in Blackness in schools and education research, meaning their Black identity is homogenized into a U.S. construction of Blackness while their ethnicity, nationality, and nativity go unacknowledged or is weaponized to subjugate other people of color. The book culminates by offering the Black Diasporic Illumination (BDI) framework with recommendations for supporting these students with a positive sense of self and abilities in the face of racial realities. BDI bridges sociocultural ecology, ethnic racial identity, and socialization scholarship, asset orientations, and critical constructions of race and racism into a transdisciplinary approach for understanding the experiences of Black immigrants in U.S. education. At a time when the importance of diversity, equity, and inclusion and social justice are being debated, this book strikes at the heart of how these issues are both present and absent in the research narratives related to Black immigrant students. From the Foreword by Janice B. Fournillier, Georgia State University: Essential insights for better seeing and serving the rich diversity of the Black immigrant student population. A groundbreaking contribution. Carola Suárez-Orozco, Harvard Graduate School of Education. *The Challenge of Independent Colleges*, Christopher C. Morphet, John M. Braxton, 2017-12. Weerts Cynthia A.
