L Fraher uncovers the story airline executives and government regulators would rather not tell **Flying in the Face of Criminalization** Sofia Michaelides-Mateou, Andreas Mateou, 2016-04-15 Two parallel investigations take place after every aviation accident one technical one judicial The former must be conducted with the sole intention of making safety recommendations to prevent the recurrence of similar accidents The judicial investigation however has the intention of identifying those parties that have been at fault and to apportion blameworthiness for criminal and civil liability Consequently this results in a predicament for those parties that have been identified as having played a role in the accident a dilemma between not supplying information aimed at enhancing safety and preventing future accidents and on the other hand supplying such information which may possibly be used against them in subsequent criminal prosecution The situation is compounded by inconsistent approaches between different legal systems aviation professionals may find themselves faced with criminal charges in one country but not in another and they may also be unsure as to whether statements given during the technical investigation could be used against them in a court of law Aviation safety is to a large extent built upon the trust placed by pilots ATCOs and other aviation professionals in the process of accident investigation This book examines the growing trend to criminalize these same people following an accident investigation and considers the implications this has for aviation safety The Soldier, the Builder, and the Diplomat Steven Schlessler, 2005 Suitable for contemporary readers who wonder at the British and American knack for misguided adventure this title features three essays on Custer the Titanic and the onset of World War I It also includes essays on the problem of pride and avoidable failure **Aircraft Accident Report** United States. National Transportation Safety Board, 1997 *Air Crash Investigations: Disaster in the Everglades the Crash of ValuJet Airlines Flight 592* Allistair Fitzgerald, 2009-12-11 On May 11 1996 at 1413 42 eastern daylight time a Douglas DC 9 32 crashed into the Everglades about 10 minutes after takeoff from Miami International Airport Miami Florida The airplane was being operated by ValuJet Airlines Inc as flight 592 and was on its way to Atlanta Georgia Both pilots the three flight attendants and all 105 passengers were killed The National Transportation Safety Board determined that the probable cause of the accident was a fire in the airplane s cargo compartment that was initiated by the actuation of one or more oxygen generators being improperly carried as cargo *Air Crash Investigations* Allistair Fitzgerald, 2009-11 On January 31 2000 Alaska Airlines Flight 261 a McDonnell Douglas MD 83 was on its way from Puerto Vallarta Mexico to Seattle Washington when suddenly the horizontal stabilizer of the plane jammed While passengers were praying for their life Captain Thompson and First officer Tansky tried to make an emergency landing in Los Angeles They did not make it the plane suddenly crashed into the Pacific Ocean killing all 93 people aboard The NTSB concluded that the failure of the horizontal stabilizer was caused by insufficient maintenance In other words the crash of Alaska Airlines Flight 261 could have been avoided **Army List and Directory** , **Inside the Sky** William Langewiesche, 1999-06-29 William Langewiesche s life has been deeply intertwined with the idea and act of flying Fifty years ago his father a test pilot wrote Stick and Rudder a

text still considered by many to be the bible of aerial navigation Langewiesche himself learned to fly while still a child Now he shares his pilot s eye view of flight with those of us who take flight for granted exploring the inner world of a sky that remains as exotic and revealing as the most foreign destination Langewiesche tells us how flight happens what the pilot sees thinks and feels His description is not merely about speed and conquest It takes the form of a deliberate climb leading at low altitude first over a new view of a home and then higher into the solitude of the cockpit through violent storms and ocean nights and on to unexpected places in the mind In Langewiesche s hands it becomes clear at the close of this first century of flight how profoundly our vision has been altered by our liberation from the ground And we understand how when we look around we may find ourselves reflected in the grace and turbulence of a human sky [United States Army Directory](#) United States. Adjutant-General's Office,1924 [Ten Questions About Human Error](#) Sidney Dekker,2004-12-27 Ten Questions About Human Error asks the type of questions frequently posed in incident and accident investigations people s own practice managerial and organizational settings policymaking classrooms Crew Resource Management Training and error research It is one installment in a larger transformation that has begun to identify both deep rooted constraints and new leverage points of views of human factors and system safety The ten questions about human error are not just questions about human error as a phenomenon but also about human factors and system safety as disciplines and where they stand today In asking these questions and sketching the answers to them this book attempts to show where current thinking is limited where vocabulary models ideas and notions are constraining progress This volume looks critically at the answers human factors would typically provide and compares contrasts them with current research insights Each chapter provides directions for new ideas and models that could perhaps better cope with the complexity of the problems facing human error today As such this book can be used as a supplement for a variety of human factors courses
