

# WHAT IS **KARMA**?

**Karma** is a concept originating from Hinduism and Buddhism, describing the principle of cause and effect. It suggests that one's actions, intentions, and deeds influence their future experiences and circumstances.

Positive actions lead to favorable outcomes, while negative actions result in unfavorable consequences, either in this life or future incarnations. **Karma** is believed to govern the cycle of birth, death, and rebirth (reincarnation).

**Karma** encourages ethical behavior, mindfulness, and compassion, emphasizing personal responsibility and accountability for one's actions and their consequences.

**Educational Philosophy of Dr S Radhakrishnan** Dr V N Deshpande, 2017 The spiritual homelessness of modern man cannot last long thus believed Dr Sarvepalli Radhakrishnan 1888-1975 a prominent philosopher educationalist and one of the makers of modern India His solution to the problems of humanity is a return to the religion of spirit to be achieved through the right kind of education Radhakrishnan advocated a sound educational philosophy aimed at harmonious development of the human personality with utmost emphasis on moral and spiritual education This book effectively presents Radhakrishnan's thoughts highlighting their relevance to the present day The author has at length discussed Indian philosophy in comparison with the Western thought and successfully established that the East West synthesis as propagated by Radhakrishnan is the need of the hour to arrest the self-destructive tendency of the world and ensure development and peace Readers will also get an account of Radhakrishnan's life story in the backdrop of the political history of pre and post Independent India

**Meaning and purpose of life** Nishkam S. Agarwal, 2015-06-11 Meaning and Purpose of Life are perhaps the most thought about if not talked about issues on the planet since human beings have walked on earth This book is another attempt to understand the Meaning and Purpose of Life using the ideas of Vedanta in Indian philosophy and of mainstream economics Starting from first principles Dr Agarwal explores the core concept of Brahman in Vedanta and builds an axiomatic foundation for understanding the meaning and purpose of life using the fundamental ideas of the Prasthanas, Upanishads and in particular of The Bhagavad Gita and The Principal Upanishads Dr Agarwal adheres to the philosophy of Karma Yoga as his chosen area of interest for the exploration of meaning and purpose which allows him to seek linkages between the concepts of social welfare in Vedanta and economics Ideas of lokasamgraha in Indian philosophy and of externalities in economics provide a clear common ground between the two apparently disparate disciplines Throughout the book he emphasizes simple practical approaches for making life more meaningful and happier while relying fundamentally on the basic ideas of Vedanta

**Philosophical Foundations of Education** Siddheshwar Rameshwar Bhatt, 2018-07-16 This book provides a philosophical foundation to the theory and practice of education from the Indian perspective It is guided by

an axionoetic approach to education and therefore it deals with the epistemological foundation and value orientation of education. The author discusses the ontological, epistemological, logical, ethical and axiological bases of education in a holistic and integrated manner. The author maintains that education is a planned, methodical and purposive enhancement of human potentialities as a natural development. This presupposes correct and adequate formulation of the objectives and goals of education as per the needs and aspirations of pupils. Education also equips individuals for a good quality of life. Keeping in view the applied dimension of philosophy, this book analyses practical issues of moral education like character building, value negativism in the context of education. It also deals with issues concerning peace, sustainable development, sustainable judicious consumption etc which should have a bearing on educational policies and programmes.

Development, Education and Learning in Sri Lanka Angela W. Little, 2024-06-13

Sri Lanka's early achievements in education and literacy became well known among the international development community in the middle of the last century and were often used to benchmark progress elsewhere. *Development, Education and Learning in Sri Lanka* presents an illuminating narrative of changing education fortunes and inequalities based on half a century of research. This research journey was undertaken in collaboration with Sri Lankan researchers island wide in myriad communities, schools, classrooms and education offices through conversations with countless parents, teachers, students, community members, trade union officers, politicians and members of local, national and international development agencies as well as through extensive documentary analysis. The book delineates the distinctive and changing features of the Sri Lankan education system through comparisons with systems elsewhere through an understanding of national political, economic and social conditions, crises and upheavals through changes in education policy and through shifting patterns of opportunity among diverse social groups. These analyses are framed by themes in the international development discourse ranging from modernisation to basic needs to globalisation and sustainable development, some of which themes have been influenced by the Sri Lankan story. The book's overriding messages are the need to understand education and development in a country's own terms and to place learning at the heart of education policy, situating it within broader conceptions of the purpose, values and means of development.

Praise for *Development, Education and Learning in Sri Lanka* Through rigorous and comprehensive research and a blend of local and global perspectives, this book offers invaluable insights for academics and policymakers alike. Tara de Mel, Director, Bandaranaike Academy for Leadership and Public Policy and former Secretary, Sri Lanka Ministry of Education. Reflecting on a career long engagement with education and development, Angela Little brilliantly co-locates the personal, political and the theoretical. A privilege to read. Simon McGrath, University of Glasgow. This passionate engagement with education reform and development offers very instructive lessons for academics and policymakers in Sri Lanka and beyond. Siri T. Hettige, University of Colombo. Fifty years of personal experience in Sri Lanka from many vantage points. A focus on education and society rather than education alone. And a concern to understand rather than prescribe. This book has no competitors. Mick

Wu, 2018-06-20 This volume is a collection of essays by former students of Judith Berling based on her revolutionary interreligious pedagogy Her pedagogy can be summarized as a student centered collaborative and engaging teaching and learning process sparked by various ways of boundary crossing In this enterprise each chapter explores the importance of understanding and negotiating differences through dialogue The authors provide theoretical frameworks for engagements across conventional borders and explore how the collaborative teaching model can be utilized in various teaching settings As an example of her dialogical approach Judith Berling herself provides a response to the chapters      **Ancient Indian Education** Radhakumud Mookerji, 1989-01-01 the dynamically creative role of the ascetic and mystic within Hinduism      Musical aptitude testing in a North London school Mario Maxwell Müller, 2014-05-16 Master s Thesis from the year 2011 in the subject Musicology Miscellaneous grade Distinction course Masters in Music Music Education with distinction language English abstract Well known musical aptitude tests designed by among others Seashore Gordon Bentley and Wing have been extensively discussed by several researchers and this background is provided in this mini dissertation However this research project was aimed at determining to what extent a newly designed music listening test impacts on students success rate in being judged to have particular musical aptitude The purpose of this research was to evaluate what students score respectively for four elements of music pitch melody rhythm and texture through a musical aptitude test designed by the author in consultation with colleagues in the Music Department at a school in North London in the United Kingdom These tests were divided into two stages with students aged 10 13 of mixed genders and from different cultural backgrounds The first focussed on the listening test questionnaire for a sample of 160 students The second stage included practical performances interviews and observations and aural tests based on the elements Rhythm Melody Improvisation Two part melody and Texture The results of the first stage revealed that the students particularly achieved high scores for the elements of music melody and pitch The age groups who scored the highest marks respectively were pupils aged 13 The results of the second sample of the respondents who completed the test revealed that the majority of the students had previous music tuition with the string instrument being the most popular amongst respondents This study revealed that students always respond to different sound qualities followed by the identification of rhythmical patterns and melody Their memory of pitch changes and develops further due to the possession of precise interval recognition and excellent memory recall      *The Origin and the Overcoming of Evil and Suffering in the World Religions* P. Koslowski, 2013-03-14 All religions face the challenge of explaining in view of God s goodness the existence of evil and suffering in the world They must develop theories of the origin and the overcoming of evil and suffering The explanations in Buddhism Christianity Hinduism Islam and Judaism of evil and suffering and their origin as well as these world religions theories of how to overcome evil and suffering differ from one another but are also similar in many respects

The human person is always considered to be the origin of evil and also to be the focus of aspirations to be able to overcome it. The conviction that evil and suffering are not original and can be overcome is characteristic of and common to the religions. The explanations of the origin of evil are closely related to the explanations of the continuation and propagation of evil in human persons in nature and in our technology and culture that have been developed in the religions. In Christianity, for example, as the doctrine of original sin. Finally, the world religions are concerned with how to cope with suffering and offer guidance for overcoming evil and suffering. Leading scholars of five world religions: Buddhism, Islam, Christianity, Judaism, and Hinduism have created with this volume a first-hand source of information which enables the reader to gain a better understanding of these religions' central teachings about the origin and the overcoming of evil and suffering. **Sathya Sai -**
