Marine Corps, 2018-09-17 The Marines in Vietnam 1954-1973 An Anthology and Annotated Bibliography based on articles that appeared in the U S Naval Institute Proceedings Naval Review and Marine Corp's Gazette has served well for 14 years as an interim reference on the Vietnam War It has both complemented and supplemented our official histories on Marine operations in Vietnam Since its publication in 1974 however events in Vietnam and the appearance of additional significant articles in the three periodicals have made both the anthology and bibliography somewhat dated This expanded edition extends the coverage of the anthology to 1975 and the entries in the bibliography to 1984 **Seabee Combat Handbook, Volume 2, Training Manual (Traman), March 1996**, 1996 The Marines in Vietnam, 1954-1973, 1985 **U.S. Marines In Vietnam: The Bitter End, 1973-1975** Maj. George Ross Dunham, Col.

David A. Quinlan, 2016-08-09 This publication represents the ninth volume in an operational and chronological series covering the Marine Corps participation in the Vietnam War. This particular volume details the final chapter in the Corps involvement in South East Asia including chapters on Cambodia, the refugees, and the recovery of the container ship SS Mayaguez. Although largely written from the perspective of the III Marine Amphibious Force, this volume also describes the roles of the two joint commands operating in the region: the Defense Attach Office Saigon and the United States Support Activities Group Thailand. Thus, while the volume emphasizes the Marine Corps role in the events of the period, significant attention also is given to the overall contribution of these commands in executing U.S. policy in South East Asia from 1973 to 1975. Additionally, a chapter is devoted to the Marine Corps role in assisting thousands of refugees who fled South Vietnam in the final weeks of that nation's existence.

Manuals Combined: U.S. Marine Corps Basic Reconnaissance Course (BRC) References, Over 5300 total pages

MARINE RECON Reconnaissance units are the commander's eyes and ears on the battlefield. They are task organized as a highly trained six-man team capable of conducting specific missions behind enemy lines. Employed as part of the Marine Air Ground Task Force, reconnaissance teams provide timely information to the supported commander to shape and influence the battlefield. The varying types of missions a Reconnaissance team conduct depends on how deep in the battle space they are operating. Division Reconnaissance units support the close and distant battlespace while Force Reconnaissance units conduct deep reconnaissance in support of a landing force. Common missions include but are not limited to: Plan, coordinate and conduct amphibious ground reconnaissance and surveillance to observe, identify and report enemy activity and collect other information of military significance; Conduct specialized surveying to include underwater reconnaissance and or demolitions, beach permeability and topography, routes, bridges, structures, urban, rural areas, helicopter landing zones (LZ), parachute drop zones (DZ), aircraft forward operating sites and mechanized reconnaissance missions. When properly task organized with other forces, equipment or personnel assist in specialized engineer, radio and other special reconnaissance missions. Infiltrate mission areas by necessary means to include surface, subsurface and airborne operations. Conduct Initial Terminal Guidance (ITG) for helicopters, landing craft, parachutists, air delivery and re-supply. Designate and engage selected targets with organic weapons and force fires to support battlespace shaping. This includes designation and terminal guidance of precision guided munitions. Conduct post strike reconnaissance to determine and report battle damage assessment on a specified target or area. Conduct limited scale raids and ambushes.
