

## Virtual Blood Pressure Lab

### Objectives

Click on <https://www.khanacademy.org/a/your-lab-101-lesson> to complete lab. Follow the directions in that document at the end.

### Introduction

Click "Introduction" in the upper right corner to read the introduction to the lab. Click the "Tutorial" button and answer the three questions below.

1. Which is greater: blood flow through all capillaries in blood pressure.

As capillaries branch out throughout the body, pressure decreases. However, the massive increase in the number of capillaries compensates for this.

2. Which knowledge about the body and the circulatory system helps us significantly about how the average blood pressure for a group of people would be affected by increasing the capillaries in the group members?

If we increase the number of capillaries in the body, pressure would decrease. This is why capillaries are so small.

3. How will you use the knowledge you have gained about blood pressure? What steps will you follow? What results will you expect?

Increased blood flow pressure will increase the blood pressure and decrease the resistance and pressure in the arteries and veins.

### Steps

To use the experimental results effectively in the lab, the results. Use the experimental results of capillary and of blood pressure in the body. Understanding capillary and blood pressure and the relationship between them.

Average Blood Pressure

Age Group	Male Average	Female Average	Male Average	Female Average
18-24	120	115	120	115
25-34	120	115	120	115
35-44	120	115	120	115
45-54	120	115	120	115
55-64	120	115	120	115

**A Wellness Way of Life** Gwen Robbins, Debbie Powers, Sharon Burgess, 2002

Concepts of Physical Fitness Charles B. Corbin, Gregory J. Welk, William R. Corbin, 2006-12 Through the use of activity labs and logs *Concepts of Physical Fitness* provides readers with the self management skills necessary to adopt a healthy lifestyle

A Fit and Well Way of Life Gwen Robbins, Debbie Powers, Sharon Burgess, 2008

Environmental Science: A Global Concern William Cunningham, Mary Ann Cunningham, 2009-09-18 *Environmental Science A Global Concern Eleventh Edition* is a comprehensive presentation of environmental science for non science majors which emphasizes critical thinking environmental responsibility and global awareness This book is intended for use in a one or two semester course in environmental science human ecology or environmental studies at the college or advanced placement high school level We

have updated data throughout the chapters in this book Information and examples presented are the most recent available as of the mid 2009 You will find an abundance of specific numbers and current events details that are difficult to keep up to date in a textbook The goal of this book is to provide an up to date introductory global view of essential themes in environmental science along with emphasis on details and case studies that will help students process and retain the general principles Because most students who will use this book are freshman or sophomore non science majors the authors make the text readable and accessible without technical jargon or a presumption of prior science background *Blood Pressure* Ed Weiner,1992

**101 Questions and Answers About Hypertension** William M. Manger,Norman M. Kaplan,2013-03-15 Hypertension or high blood pressure affects an estimated 50 million Americans and is a major contributor to cardiovascular disease the leading cause of death in the United States Through proper management the effects of hypertension can be minimized Dr William Manger s 101 Questions it s also responsible for more than 52 million lost workdays In addition every year more than one million people suffer heart attacks and 600 000 suffer strokes a large percentage of both proving fatal However Dr Manger is convinced these statistics can be reduced Inspired by the decrease in the incidence of heart attack and stroke Manger saw that with improved medical management and healthy lifestyle changes hypertension could be controlled and its complications minimized or prevented He believes a close patient doctor relationship and a clear understanding of what hypertension is and how to manage it is essential for bringing it under control and minimizing the risk of further health complications Even though Manger is positive overall about statistics still there is room for improvement nearly 30% of people suffering from hypertension go undiagnosed and only 27% of the 50 million people with this condition have their blood pressure under control 101 Questions Answers About Hypertension seeks to reduce the statistical gap by giving readers a comprehensive understanding of hypertension so they are able to knowledgeably communicate with their doctors and make informed decisions and choices to improve their health and reduce health risk **Blood Pressure** Kalra Morales, *100 Questions & Answers about High Blood Pressure (Hypertension)* , **Blood Pressure in General Practice** Percival Nicholson,1915 *100 Questions & Answers About High Blood Pressure (Hypertension)* Raymond R. Townsend,2007-10-19 Hypertension high blood pressure affects 1 in every 4 adults in this country Hypertension is a serious condition that can damage the blood vessels and eventually lead to stroke heart failure heart attack kidney failure and vision problems Whether you re a newly diagnosed patient or are a friend or relative of someone suffering from high blood pressure this book offers help The only text available to provide both the doctor s and patient s views 100 Questions Answers About High Blood Pressure Hypertension gives you authoritative practical answers to your questions Written by an expert on the subject with Handbook of Blood Pressure Measurement L. A. Geddes,2013-06-29 During the last two decades many new techniques and devices have appeared for measuring blood pressure both directly and indirectly At present there is no single source for this information nor is there information on the accuracy and sources of error expected with these

technologies It is for this reason that the present book was written Divided into three parts direct measurement indirect noninvasive measurement and history the book is directed toward a broad audience in the medical and biological sciences Physicians nurses medical students and psychologists as well as technical persons in the health care field will find Part One of considerable practical value because it deals with the subject of the accuracy and fidelity of reproduction of blood pressure waveforms that they regularly view on monitors The definitions of systolic mean diastolic and capillary wedge pressures are illustrated and discussed The pressures and waveforms at different sites in the cardiovascular system are described in detail Then the various types of devices for measuring blood pressure are described and thoroughly illustrated The effect of length and internal diameter of a catheter is analyzed to illustrate how fidelity of reproduction is affected Simple tests are described that show the reader how to determine the performance characteristics of a catheter transducer system The characteristics of catheter tip transducers are presented and Part One concludes with a discussion of the rate of change of pressure  $dp/dt$  what it means and how such a recording can be calibrated

**Epitome on Blood Pressure** Burton Baker Grover, 1924
