Hendrickson, 2022-04-01 In Jesuit Higher Education in a Secular Age Creighton University President Daniel S Hendrickson SJ explores three pedagogies of fullness study solidarity and grace to show how Jesuit education can foster greater self awareness a stronger sense of global solidarity and an aptitude for inspiration awe and gratitude among their students **The Routledge Handbook of Shakespeare and Animals** Karen Raber, Holly Dugan, 2020-08-10 Shakespeare's plays have a long and varied performance history The relevance of his plays in literary studies cannot be understated but only recently have scholars been looking into the presence and significance of animals within the canon Readers will quickly find without having to do extensive research that the plays are teeming with animals In this Handbook Karen Raber and Holly Dugan delve deep into Shakespeare's World to illuminate and understand the use of animals in his span of work This volume supplies a valuable resource offering a broad and thorough grounding in the many ways animal references and the appearance of actual animals in the plays can be interpreted It provides a thorough overview demonstrates rigorous original research and charts new frontiers in the field through a broad variety of contributions from an international group of well known and respected scholars **Montaigne and the Lives of the Philosophers** Alison Calhoun, 2014-12-18 In his *Essais* Montaigne stresses that his theoretical interest in philosophy goes hand in hand with its practicality In fact he makes it clear that there is little reason to live our lives according to doctrine without proof that others have successfully done so Understanding Montaigne's philosophical thought therefore means not only studying the philosophies of the great thinkers but also the characters and ways of life of the philosophers themselves The focus of *Montaigne and the Lives of the Philosophers* Life Writing and Transversality in the *Essais* is how Montaigne assembled the lives of the philosophers on the pages of his *Essais* in order to grapple with two fundamental aims of his project first to transform the teaching of moral philosophy and next to experiment with a transverse construction of his self Both of these objectives grew out of a dialogue with the structure and content in the life writing of Plutarch and Diogenes Laertius authors whose books were bestsellers during the essayist's lifetime *Walter Pater's European Imagination* Lene Østermark-Johansen, 2022-08-08 Walter Pater's *European Imagination* addresses Pater's literary cosmopolitanism as the first in depth study of his fiction in dialogue with European literature Pater's short pieces of fiction the so called imaginary portraits trace the development of the European self over a period of some two thousand years They include elements of travelogue and art criticism together with discourses on myth history and philosophy Examining Pater's methods of composition use of narrative voice and construction of character the book draws on all of Pater's oeuvre and includes

discussions of a range of his unpublished manuscripts essays and reviews It engages with Pater's dialogue with the visual portrait and problematises the oscillation between type and individual the generic and the particular which characterises both the visual and the literary portrait Exploring Pater's involvement with nineteenth century historiography and collective memory the book positions Pater's fiction solidly within such nineteenth century genres as the historical novel and the Bildungsroman while also discussing the portraits as specimens of biographical writing As the Ur texts from which generations of modernist life writing developed Pater's imaginary portraits became pivotal for such modernist writers as Virginia Woolf and Harold Nicolson Walter Pater's European Imagination explores such twentieth century successors together with French contemporaries like Sainte Beuve and followers like Marcel Schwob

The Science of Modern Virtue Peter Lawler, Marc Guerra, 2013-11-01 The Science of Modern Virtue examines the influence that the philosopher Rene Descartes the political theorist John Locke and the biologist Charles Darwin have had on our modern understanding of human beings and human virtue Written by leading thinkers from a variety of fields the volume is a study of the complex relation between modern science and modern virtue between a kind of modern thought and a kind of modern action Offering more than a series of substantive introductions to Descartes Locke's and Darwin's accounts of who we are and the kind of virtue to which we can aspire the book invites readers to think about the ways in which the writings of these seminal thinkers shaped the democratic and technological world in which modern human beings live Thirteen scholars in this volume learnedly explore questions drawn from the diverse disciplines of political science philosophy theology biology and metaphysics Let the reader be warned The authors of these essays are anything but consensual in their analysis Considered together the chapters in this volume carry on a lively internal debate that mirrors theoretical modernity's ongoing discussion about the true nature of human beings and the science of virtue Some authors powerfully argue that Locke's and Darwin's thought is amenable to the claims made about human beings and human virtue by classical philosophers such as Aristotle and classical Christian theologians such as Thomas Aquinas Others make the opposite case drawing attention to the ways in which Descartes Locke and Darwin knowingly and dialectically depart from central teachings of both classical philosophy and classical Christian theology

Gregory Burke and Edgar Allan Poe **Dramatic Geography** Laurence Publicover, 2017-09-15 Focusing on early modern plays which stage encounters between peoples of different cultures this book asks how a sense of geographical location was created in early modern theatres that featured minimal scenery While previous studies have stressed these plays' connections to a historical Mediterranean in which England was increasingly involved this volume demonstrates how their dramatic geography was shaped through a literary and theatrical heritage Reading canonical plays including *The Merchant of Venice* *The Jew of Malta* and *The Tempest* alongside lesser known dramas such as *Soliman and Perseda* Guy of Warwick and *The Travels of the Three English Brothers* *Dramatic Geography* illustrates how early modern dramatists staging foreign worlds drew upon a romance tradition dating back to the medieval period and how they responded to one another's plays to create an intertheatrical geography These strategies shape the plays' wider meanings in important ways and could only have operated within the theatrical environment peculiar to early modern London one in which playwrights worked in close proximity in one instance perhaps even living together while composing Mediterranean dramas and one where they could expect audiences to respond to subtle generic and intertextual negotiations In reassessing this group of plays Laurence Publicover brings into conversation scholarship on theatre history cultural encounter and literary geography the book also contributes to current debates in early modern studies regarding the nature of dramatic authorship the relationship between genre and history and the continuities that run between the fourteenth and seventeenth centuries **Rubens and the**
