Competitive Electricity Markets Fereidoon Sioshansi, 2011-10-10 After 2 decades policymakers and regulators agree that electricity market reform liberalization and privatization remains partly art Moreover the international experience suggests that in nearly all cases initial market reform leads to unintended consequences or introduces new risks which must

be addressed in subsequent reform of the reforms Competitive Electricity Markets describes the evolution of the market reform process including a number of challenging issues such as infrastructure investment resource adequacy capacity and demand participation market power distributed generation renewable energy and global climate change Sequel to Electricity Market Reform An International Perspective in the same series published in 2006 Contributions from renowned scholars and practitioners on significant electricity market design and implementation issues Covers timely topics on the evolution of electricity market liberalization worldwide

Subjectivism and Objectivism in the History of Economic Thought

Kiichiro Yagi, Yukihiro Ikeda, 2012-07-26 This book investigates the tensions between subjectivism and objectivism in the history of economics The book looks at the works of Adam Smith Carl Menger Leon Walras William Stanley Jevons Oskar Morgenstern Ludwig Mises Piero Sraffa and so on The book highlights the diverse subjective and objective elements of their economic theories and suggests a reframing of methodology to better address the core problems of the theories Contributors of the volume are leading members of the Japan Society of History of Economic Thought who have provided a comprehensive overview on the economics methodology and the related problems Hence this book will be of an invaluable asset to not only those who are interested in the history of economic thought but also to scholars who are concerned with the methodological problems of economic science
