and styles of discipline in schools Drawing on the latest international research Porter outlines how teachers can develop a personal style in classroom management based on a sound understanding of theory The emphasis is on proactive authoritative approaches to discipline to engage students and facilitate the achievement of educational and social goals Porter demonstrates how it is within the power of schools and teachers to create the conditions under which even disadvantaged or disenchanted students strive to learn A Comprehensive Guide to Classroom Management is the essential handbook for preservice teachers and a valuable reference for more experienced teachers who want to develop their approach to complex behavioural challenges True to its title this is an enormously ambitious indeed encyclopaedic resource that makes a compelling multilayered case for putting respect for children s needs ahead of our urge to control them Alfie Kohn author of Beyond Discipline and Punished by Rewards There is so much to admire and absorb in this impressive and highly readable blend of research idealism and sound sense highly recommended for principals aspiring school leaders and reflective practitioners teaching students with behavioural difficulties Dr Ted Cole lead editor of The Routledge International Companion to Emotional and Behavioural Difficulties Problem of the Century Elijah Anderson,Douglas Massey,2001-07-19 In 1899 the great African American scholar W E B DuBois published The Philadelphia Negro the first systematic case study of an African American community and one of the foundations of American sociology DuBois prophesied that the color line would be the problem of the twentieth century One hundred years later Problem of the Century reflects upon his prophecy exploring the ways in which the color line is still visible in the labor market the housing market education family structure and many other aspects of life at the turn of a new century The book opens with a theoretical discussion of the way racial identity is constructed and institutionalized When the government classifies races and confers group rights upon them is it subtly reenforcing damaging racial divisions or redressing the group privileges that whites monopolized for so long The book also delineates the social dynamics that underpin racial inequality The contributors explore the causes and consequences of high rates of mortality and low rates of marriage in black communities as well as the way race affects a person s chances of economic success African Americans may soon lose their historical position as America s majority minority and the book also examines how race plays out in the sometimes fractious relations between blacks and immigrants The final part of the book shows how the color line manifests itself at work and in schools Contributors find racial issues at play on both ends of the occupational ladder among absentee fathers paying child support from their meager earnings and among black executives prospering in the corporate world In the schools the book explores how race defines a student s peer group and how peer pressure affects a student s grades Problem of the Century draws upon the distinguished faculty of sociologists at the University of Pennsylvania where DuBois conducted his research for The Philadelphia Negro The contributors combine a scrupulous commitment to empirical inquiry with an eclectic openness to different methods and approaches Problem of the Century blends ethnographies and surveys statistics and content analyses census data and

historical records to provide a far reaching examination of racial inequality in all its contemporary manifestations
