Get Dressed A Useful Guide To Londons Boutiques:

Get Dressed Millicent Bultitude, 1966 **Shopping and the Senses, 1800-1970** Serena Dyer, 2022-03-12 This book demonstrates the primacy of touch smell taste sight and sound within the retail landscape It shows that histories of the senses body and emotions were inextricably intertwined with processes and practices of retail and consumption Shops are sensory feasts From the rustle of silk to the tempting aroma of coffee the multi sensory appeal of goods has long been at the heart of how we shop This book delves into and beyond this seductive idyl of consumer sensuality Shopping was a sensory activity for consumers and retailers alike but this experience was not always positive This book is inhabited by tired feet and weary workers as well as eager shoppers It considers embodied sensory experiences and practices and it represents both a celebration and interrogation of the integration of sensory histories into the study of retail and consumption Crucially this book places breathing feeling human bodies back into the retail space **Waterloo Sunrise** John Davis, 2024-03-26 This is an urban history of London during the pivotal years of the 1960s and 1970s when the metropolis was transformed from an industrial city that the Victorians might have recognised to an embryonic modern world city Previous work on London in these years has tended to focus upon the 1960s in particular the Swinging London phenomenon Mary Quant Carnaby Street and the King s Road Chelsea all appear in these pages but it is argued that the swinging moment of the mid sixties was a passing symptom of a much broader transformation from an industrial to a service based city and it is that transformation which this book examines London is too complex and diverse a city to be comprehended in a simple linear narrative this book adopts instead an innovative approach to urban history by which London life and London s transformation are examined through a number of case studies looking at specific themes and areas of the city Consumerism and the experience economy home ownership and gentrification deindustrialisation and deprivation racial tension and unemployment the attrition of public services and the steady loss of confidence in public agencies national and local emerge as overarching themes from the individual case studies in this book Their combined effect it is argued was to prepare the ground for the Britain that Margaret Thatcher is usually held to have created after 1979 without Thatcher herself having anything to do it *100 20th-Century Shops* Twentieth Century Society, 2023-11-09 A showcase of Britain s most architecturally significant shops throughout the twentieth century and beyond 100 20th Century Shops is a fascinating insight into the heritage of Britain s changing high street and the diverse architectural styles of the 20th century Entries in this book showcase 100 often instantly recognisable shops from across the country from throughout the 20th century and stretching into the 21st capturing the changing architectural styles of our beloved and rapidly disappearing retail environment As the UK s retail landscape faces an existential crisis now is an appropriate time to review and celebrate the architecture of our high streets From Tudor revival department stores and futuristic supermarkets to Art Deco shop fronts and post war Festival style markets the 100 shops featured here evoke a variety of design styles and traces the history and evolution of our cherished high street The
