Trade and Migration Ruriko Otomo,2023-06-21 This book examines the effect of trade policy on language which represents
 an underrecognized area in the field of language policy and planning It argues that trade policies like Japan s Economic
 Partnership Agreements EPAs have important consequences for national language education policies and for discourses
 about language and nation Since 2008 Japan has signed the EPAs with Indonesia the Philippines and Vietnam to recruit
 migrant nurses and eldercare workers and manage their mobility by means of pre employment language training and the
 Japanese medium licensure examinations Through the analysis of these language management devices this book
 demonstrates that the EPAs are a manifestation and representation of contemporary language issues intertwined particularly
 with pressing issues of Japan s social aging and demographic change As the EPAs are intertwined with welfare economy
 social cohesion and international political and economic relations and competitiveness the book presents a far more complex
 picture of and a richer potential of language policy **Discover Sociology** Daina S. Eglitis,William J. Chambliss,Susan L.

Burn R. Jisung Park, 2025-07-29 How the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle them today It s hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In *Slow Burn* R Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally
