One Nation Undecided Peter H. Schuck,2019-08-06 At a time of deep social and political division along comes a much needed book to steer us toward solutions to five very difficult national problems There could be no better guide for this endeavor than Peter Schuck one of the clearest and most thoughtful legal and policy scholars of this or any generation Robert E Litan author of Trillion Dollar Economists s *Life in the Age of Drone Warfare* Lisa Parks,Caren Kaplan,2017-10-19 This volume s contributors offer a new critical language through which to explore and assess the historical juridical geopolitical and cultural dimensions of drone technology and warfare They show how drones generate particular ways of visualizing the spaces and targets of war while acting as tools to exercise state power Essays include discussions of the legal justifications of extrajudicial killings and how US drone strikes in the Horn of Africa impact life on the ground as well as a personal narrative of a former drone operator The contributors also explore drone warfare in relation to sovereignty governance and social difference provide accounts of the relationships between drone technologies and modes of perception and mediation and theorize drones relation to biopolitics robotics automation and art Interdisciplinary and timely *Life in the Age of Drone Warfare* extends the critical study of drones while expanding the public discussion of one of our era s most ubiquitous instruments of war Contributors Peter Asaro Brandon Wayne Bryant Katherine Chandler Jordan Crandall Ricardo Dominguez Derek Gregory Inderpal Grewal Lisa Hajjar Caren Kaplan Andrea Miller Anjali Nath Jeremy Packer Lisa Parks Joshua Reeves Thomas Stubblefield Madiha Tahir **South African national bibliography** ,1999 Classified list with author and title index **The English Professor** Margaret R. O'Leary/Dennis S. O'Leary,2016-02-04 Across the span of more than forty years Raphael Dorman O Leary a professor of English rhetoric and English literature taught his students at the University of Kansas to think straight to put sinew into their sentences and to embrace the magnificent literary treasures of their mother tongue *The English Professor* by authors Margaret R O Leary and Dennis S O Leary offers a narrative of the life work and times of a revered Midwestern university English teacher This memoir narrates how the professor born in 1866 was raised on a Kansas farm in the post bellum era Like his father before him he was committed to a life of learning and teaching His colleagues knew him for his unpretentious exterior honesty and integrity and his flashing anger at cheapness vulgarity pretense and above all charlatanism When Professor O Leary died after a short illness in 1936 his personal effects passed through two generations to his grandson Dennis S O Leary who with his wife Margaret discovered his papers while restoring a family house The trove of material served as the core resource for the compilation of *The English Professor* It provides insights into the histories of Kansas and the University of Kansas and of Harvard University as well as perspectives on higher education including the teaching of English rhetoric language literature journalism and oratory in the United States **The Geography of Injustice** Barak Kushner,2024-03-15 In *The Geography of Injustice* Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day In 1946 the

Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan's empire. At its conclusion one of the judges voiced dissent claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge. War crimes tribunals, Kushner shows, allow for the history of the defeated to be heard. In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate. The Tokyo Trial courtroom as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two. These narratives and counter narratives form the basis of postwar memory concerning Japan's imperial aims across the region. The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption. The Geography of Injustice offers compelling evidence that despite the passage of seven decades since the end of the war East Asia is more divided than united by history.

The Meritocracy Trap Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy. It is an axiom of American life that advantage should be earned through ability and effort. Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme. Both Democrats and Republicans insistently repeat meritocratic notions. Meritocracy cuts to the heart of who we are. It sustains the American dream. But what if both up and down the social ladder meritocracy is a sham. Today meritocracy has become exactly what it was conceived to resist: a mechanism for the concentration and dynastic transmission of wealth and privilege across generations. Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite. At the same time meritocracy now ensnares even those who manage to claw their way to the top, requiring rich adults to work with crushing intensity, exploiting their expensive educations in order to extract a return. All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes. This is the radical argument that Daniel Markovits prosecutes with rare force. Markovits is well placed to expose the sham of meritocracy. Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within. Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it. When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people.

Research Handbook on Digital Transformations F. Xavier Olleros, Majlinda Zhegu, 2016-09-30 The digital transition of our economies is now entering a phase of broad and deep societal impact. While there is one overall transition there are many different sectoral transformations from health and legal services to tax reports and taxi rides as well as a rising number of transversal trends and policy issues from widespread precarious employment and privacy concerns to market monopoly and cybercrime. They all are fertile ground for researchers as established laws and regulations

organizational structures business models value networks and workflow routines are contested and displaced by newer alternatives This Research Handbook offers a rich and interdisciplinary synthesis of some of the current thinking on the digital transformations underway

Excluded Richard D Kahlenberg,2023-07-11 An indictment of America s housing policy that reveals the social engineering underlying our segregation by economic class the social and political fallout that result and what we can do about it The last acceptable form of prejudice in America is based on class and executed through state sponsored economic discrimination which is hard to see because it is much more subtle than raw racism While the American meritocracy officially denounces prejudice based on race and gender it has spawned a new form of bias against those with less education and income Millions of working class Americans have their opportunity blocked by exclusionary snob zoning These government policies make housing unaffordable frustrate the goals of the civil rights movement and lock in inequality in our urban and suburban landscapes Through moving accounts of families excluded from economic and social opportunity as they are hemmed in through new redlining that limits the type of housing that can be built Richard Kahlenberg vividly illustrates why America has a housing crisis He also illustrates why economic segregation matters since where you live affects access to transportation employment opportunities decent health care and good schools He shows that housing choice has been socially engineered to the benefit of the affluent and that astonishingly the most restrictive zoning is found in politically liberal cities where racial views are more progressive Despite this there is hope Kahlenberg tells the inspiring stories of growing number of local and national movements working to tear down the walls that inflicts so much damage on the lives of millions of Americans
