conservative      **Sport and the Home Front** Matthew Taylor, 2020-05-31 Sport and the Home Front contributes in significant and original ways to our understanding of the social and cultural history of the Second World War. It explores the complex and contested treatment of sport in government policy, media representations and the everyday lives of wartime citizens. Acknowledged as a core component of British culture, sport was also frequently criticised, marginalised and downplayed, existing in a constant state of tension between notions of normality and exceptionality, routine and disruption, the everyday and the extraordinary. The author argues that sport played an important yet hitherto neglected role in maintaining the morale of the British people and providing a reassuring sense of familiarity at a time of mass anxiety and threat. Through the conflict, sport became increasingly regarded as characteristic of Britishness, a symbol of the ordinary everyday lives in defence of which the war was being fought. Utilised to support the welfare of war workers, the entertainment of service personnel at home and abroad, and the character formation of schoolchildren and young citizens, sport permeated wartime culture, contributing to new ways in which the British imagined the past, present and future. Using a wide range of personal and public records, from diary writing and club minute books to government archives, this book breaks new ground in both the history of the British home front and the history of sport.

**Patriarchy Inc.** Cordelia Fine, 2025-08-19 A razor sharp and quick witted analysis of why we need a new approach to fixing the gender inequality embedded in work. Work remains much as it always has: men occupy the vast majority of leadership roles and are overrepresented in positions from engineer to plumber. We see many jobs as male or female, with women dominating in healthcare and childcare professions. Pretending that this is the natural state of things, or that instead both sexes should submit to working 24/7, is just not right. In *Patriarchy Inc.* Cordelia Fine examines with razor sharp and quick witted analysis why gender inequality is embedded in the workplace and why it has to change. Drawing on theories from evolutionary science, psychology, economics and sociology, she examines two of the most prominent movements in the corporate world. The Different But Equal viewpoint espouses that women are in the jobs they want despite their lower status and salaries. In the meantime, DEI (Diversity, Equity, Inclusion) has become a slogan that emphasizes productivity and profit, not fair play. Fine shows how both are wrong and the bad effects on everyone when men are still stuck in traditional breadwinner roles and women are having to fight for their due. Offering perceptive and much needed insight into the current state of work, *Patriarchy Inc.* explores how we can get closer to achieving equality, even if it means upturning business as usual.

*Shadow of Liberation* Vishnu Padayachee, Robert Van Niekerk, 2019-10-01 *Shadow of Liberation* explores the intricate twists, turns, contestations and compromises of ANC economic and social policymaking with a focus on the transition era of the 1990s and the early years of democracy. With the damning revelations by the Zondo Commission of Inquiry into State Capture on the massive corruption of the South African body politic, the timing of this book could not be more relevant. South Africans need to confront the economic and social policy choices that the liberation movement made and to see how these decisions may have facilitated the conditions for corruption to emerge and flourish.

Answers are needed Padayachee and van Niekerk focus their attention on the primary question of how and why the ANC given its historical anti inequality re distributive stance come in the 1990s to such a dramatic turn around and move towards an essentially market dominated approach Were they pushed or did they go willingly What role if any did Western governments and international financial institutions play And what of the role of the late apartheid state and South African business Did leaders and comrades sell out the ANC s emancipatory policy vision Shadow of Liberation tries to provide answers to these questions drawing on the best available primary archival evidence as well as extensive interviews with key protagonists across the political non government and business spectrum The authors argue that the ANC s emancipatory policy agenda was broadly to establish a social democratic welfare state upholding rights of social citizenship However its economic policy framework to realise this emancipatory mission was either non existent or egregiously misguided

**Fascism or Whatever You Want to Call It** Saladdin Bahoze,2025-04-21 Fascism or Whatever You Want to Call It constructs a crucial framework for diagnosing and exposing fascist ideologies and movements in whatever historical and geographical circumstances or disguises they may appear At no point in history have so many people been subjected to the rule or threat of fascist movements Nor have power and privilege ever been so concentrated in the hands of a few We are living in the age of the decline of bourgeois liberalism and the rise of something much less democratic something sectarian extremist militaristic and exclusionary which should be called fascism Because fascism deploys endless camouflaging strategies a critical theory for diagnosing and analyzing it is desperately needed That is what this book offers Arguing against conventional approaches that use the European model of the 1930s as a yardstick Bahoze conceptualizes fascism as a form rather than a system of power and ideology
