Transformation Audit 2011 Jan Hofmeyr, 2012-03-07 The 2011 Transformation Audit presents a collection of articles by South African thought leaders which asks how the country can set goals and achieve them in a hostile global climate that threatens developmental gains that have been painstakingly achieved For nearly two decades South Africans have conducted exhaustive analyses of the country's challenges embarked on bold scenario exercises and more recently produced forward looking strategies aimed at addressing these challenges The most eminent of these in recent years were the Department of Economic Development's New Growth Path and the National Planning Commission's Draft National Development Plan We know now what the problems are and by and large what needs to change to address them Courage is required now to forge consensus to take decisions on strategies and to start implementing them As in previous years this publication with its slightly different format and appearance seeks to provide analysis and provoke debate on how this might be achieved

The Armed Forces Covenant in action? Great Britain: Parliament: House of Commons: Defence Committee, 2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012

3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country **Great Teachers** Great Britain.
