dead and unaware and indifferent and that he was therefore free to speak his whole frank mind The year 2010 marks the 100th anniversary of Twain's death In celebration of this important milestone and in honor of the cherished tradition of publishing Mark Twain's works UC Press is proud to offer for the first time Mark Twain's uncensored autobiography in its entirety and exactly as he left it This major literary event brings to readers admirers and scholars the first of three volumes and presents Mark Twain's authentic and unsuppressed voice brimming with humor ideas and opinions and speaking clearly from the grave as he intended Editors Harriet E Smith Benjamin Griffin Victor Fischer Michael B Frank Sharon K Goetz Leslie Myrick

Essays on Language in Societal Transformation Tunde Opeibi, Josef Schmied, Tope Omoniyi, Kofo Adedeji, 2015-01-30 This paper generally lends support to the arguments advanced by Awonusi 1989 1990 2004 and others in favour of an endonormative as opposed to an exonormative standard for English pronunciation in Nigeria They include the fact that the existing exonormative standard British Received Pronunciation RP has undergone and is still undergoing changes in its homeland and is not homogeneous The heightened social mobility of today's world perhaps works against the demarcation and homogenization of language varieties and this is all the more true of the varieties or lects that have been proposed for Nigerian English when these are related more or less explicitly to educational attainment Major attention is given in the paper to a schema of basilect mesolect and acrolect presented by Ugorji 2010 with a focus on his account of vowels and his presentation of a mechanism derived from optimality theory for evaluating vowels in contention The basilect and the mesolect are found to be so close to each other that they might be combined There would then be just two varieties In contrast the acrolect is close to British RP albeit with many variants due to the conflict of two standardising forces i.e. British RP and the basilect mesolect The vowel system of an officially adopted endonormative standard Nigerian RP would mainly be the same as that of British RP but the optimality mechanism could be employed to give preference to some of the Nigerian variants for inclusion in it
