**Addiction, Representation and the Experimental Novel, 19852015** Heath A. Diehl, 2020-12-15 Since the nineteenth century the Western realistic novel has persistently represented the addict as a morally toxic force bent on destroying the institutions practices and ideologies that historically have connoted reason order civilization Addiction Representation undertakes an investigation into an alternative literary tradition that unsettles this limited portrayal of the addict The book analyzes the practices and politics of reading the experimental addiction novel and outlines both a practice and an ethics of reading that advocates for a more compassionate response to both diegetic and

extra diegetic addicts an approach that at its core is focused on understanding Toward a Phenomenology of Addiction: Embodiment, Technology, Transcendence Frank Schalow, 2017-10-11 This book addresses an epidemic that has developed on a global scale and which under the heading of addiction presents a new narrative about the travails of the human predicament The book introduces phenomenological motifs such as desire embodiment and temporality to uncover the existential roots of addiction and develops Martin Heidegger's insights into technology to uncover the challenge of becoming a self within the impulsiveness and depersonalization of our digital age By charting a new path of philosophical inquiry the book allows a pervasive cultural phenomenon ordinarily reserved to psychology to speak as a referendum about the danger which technology poses to us on a daily basis In this regard addiction ceases to be merely a clinical malady and instead becomes a signpost to exposing a hidden danger posed by the assimilation of our culture within a technological framework

**Hooked on Growth** Douglas E. Booth,2004-05-03

Challenging conventional wisdom on the virtues of a consumer economy this provocative book explores the nexus between growth and environment sustainability The miracle of the modern affluent economy is an ever swelling cornucopia of consumer goods leading to expanding consumption as the essential underpinning of economic growth in more and more parts of the globe Douglas Booth contends that expansion in this form amounts to an addiction Are we as a society hooked on economic growth of a kind that carries with it significant threats to the natural environment A critical dilemma for the modern economy is that

growth is required to prevent the pain of unemployment As growth continues the environment declines but if growth slows unemployment rises We seem trapped in a spiraling predicament like that of the addict This accessible work explores whether getting unhooked from growth to meet the needs of the environment is possible Giving the environment priority over growth may seem to some like a radical idea yet the author argues that it can be accomplished using marketable emissions allowances transferable development rights and other tools popular with conventional economists It can also be achieved by creating more interesting and environmentally friendly urban landscapes less beholden to the automobile The key problem a less growth oriented society will face is ensuring that everyone who wants employment can find it This will require something that many people wish for anyway a shorter workweek More leisure a higher quality environment and more attractive cities and towns are the potential rewards of a less consumption oriented society Yet powerful economic interests that benefit from a high growth economy are arrayed against changes in the status quo Under what circumstances can the power of special interests be overcome in the name of environmental conservation This is the author's critical final question as he offers a clear path to a sustainable economic and environmental future

**Art, Medicine, and Femininity** Hannah Halliwell, 2023-12-15 Paris is the centre of the cult wrote Robert Hichens in Felix his 1902 novel on the rising number of morphine addictions in Europe In Paris artists depicted the morphine addict numerous times yet they disregarded the reality of France's addiction problem male medical professionals made up the highest proportion of people who used morphine habitually In oil paintings caricatures and lithographs artists such as Pablo Picasso Eugène Grasset and Théophile Steinlen almost always depicted the morphine addict as a deviant female figure Artists sensationalized addiction to elicit shock and stand out in the crowded Parisian art market Their artworks show influences from contemporary medical texts on addiction and artistic depictions of sex workers lesbians and other women deemed socially deviant These images proliferated in French society creating false narratives about who was or could become addicted to drugs and setting a precedent for the visualization of drug addiction Hannah Halliwell links the feminization of addiction to broader anxieties in late nineteenth century France the defeat by Prussia in 1871 concerns about social decadence a declining population and a rising feminist movement Art Medicine and Femininity presents a new understanding of the history of addiction and substance use and its intersection with art and gender
