Adolescent Use of New Media and Internet Technologies Gordon P. D. Ingram,2023-03-31 This book engages with contemporary and often polarizing debates surrounding the risks of adolescent use of digital media and internet technologies By drawing on multiple research studies the text synthesizes current understandings of the impacts of social network use online gaming pornography and phenomena including cyberbullying cyberstalking and internet addiction to develop recommendations for the effective identification of at risk youth as well as strategies for informed communication about online risks and opportunities It shows how media discussion of risks to children and teenagers from new technology is highly emotive and often exaggerated rooted in the moral panic surrounding new cultural practices that young people engage in but which adults do not understand Online risks are thus conceptualized as centering on three areas specific to adolescence which have undergone radical changes due to new internet technology These include young people s identity the types of content that are accessed and social relationships The author shows how these matters stem from the potential of new technology to establish new interpersonal connections emphasizing how it brings opportunities as much as risks As such he provides a uniquely balanced discussion of potential

dangers while also emphasizing the opportunities for social academic and personal growth which new technologies afford young people It will be indispensable for researchers and clinicians interested in assessing levels of online risk as well as scholars and educators with interests in cyberpsychology social psychology cyber culture social aspects of computing and media and adolescent development Wedding as Text Wendy Leeds-Hurwitz,2002-12-18 This volume using intercultural weddings as its focus examines what occurs when the signs codes of different cultures come into contact influence one another For scholars advanced level students of interpersonal nonverbal intercultural comm Swarms, Viral Writing, and the Local Carl Whithaus,2025-04-15 Swarms, Viral Writing, and the Local examines the social and rhetorical dynamics around emerging writing technologies Carl Whithaus argues that these dynamics work across networked publics as patterns of behavior and ways of interacting through and with multimodal texts This rhetorical analysis of the production and reception of born digital rhetoric shows the ongoing and evolving impacts of online public discourse that can lead to bad restaurant reviews or the subversion of democracy It is a networked process that gains significance because of the interplay and tensions between the global and the local As these texts are created distributed received and then recreated and shared again in viral ways different messages resonate across media ecologies Whithaus documents how emerging social dynamics shape and are shaped by digital writing reading and distribution technologies **Math Therapy™** Vanessa Vakharia,2024-08-08 Anything is possible even building a better relationship with math This is much more than a book about math This is a book about hope Imagine failing 11th grade math twice and going on to be known affectionately as The Lady Gaga of Math That is the story of author Vanessa The Math Guru Vakharia Thanks to an inspiring teacher who helped Vanessa heal her own relationship with math Vanessa was then able to see math in a way that literally changed the trajectory of her life Most people have experienced math trauma at least once but by early mid elementary school many students have gotten the message that either they are a math person or they are not In Math Therapy™ Vanessa shows that with the right tools and strategies teachers can foster a culture in which every student is capable of building a better relationship with math and with themselves Through the five M s of Math Therapy™ Mythbust Moderate Motivate Makeover and Measure teachers can help their students overcome math trauma cultivate a positive math identity and develop a mathematical mindset Written in a fun and conversational style and grounded in research on math education and neuropsychology this book Provides practical hands on strategies and tools that make it easy and fun for teachers to implement each step of Math Therapy™ in their classroom Helps teachers unpack their own math history before diving in to what they can do to help their students Addresses the trauma induced stumbling blocks that many students face when tackling mathematics Includes humorous and engaging real life vignettes from celebrating Pi Day by visiting a prison to setting off a confetti cannon to celebrate a student s milestone to the time Vanessa s band opened for Bon Jovi and more Much more than a book about helping students kick butt in math class this book is about empowering students to develop the skills they need to live a life

in which they truly believe that anything is possible even a better relationship with math **Text Me When You're Outside (Or Not at All)** Fran Preston, Modern dating is 90% texting 8% panicking about texting and 2% actual face to face interaction Text Me When You're Outside Or Not at All is Fran Preston's hilariously honest guide to navigating the confusing etiquette emotional gymnastics and sheer weirdness of romantic communication in the digital age From deciphering the meaning behind haha versus lol to overanalysing the exact tone of hey x Fran dives into the murky waters of read receipts dry replies voice notes and the existential dread that comes with being left on seen This book is for anyone who's ever drafted a message in Notes roped in a friend to vet it and still deleted it four times before hitting send Whether you're trying to flirt follow up or figure out if let's hang out soon is a real plan or just polite noise Fran's got you Because in a world where people would rather ghost than communicate sometimes the kindest thing you can do is just not text at all

Intertextuality 2.0 Cynthia Gordon, 2023 Intertextuality is the overarching idea that all texts and conversations are linked to other texts and conversations and that people create and infer meanings in discourse through making and interpreting these links Intertextuality is fundamentally connected to metadiscourse when a person draws on or references one text or conversation in another intertextuality they necessarily communicate something about that text or conversation metadiscourse While scholars have long recognized the interrelatedness of these two theoretical concepts existing studies have tended to focus on one or the other leaving underexplored the specific ways in which these phenomena are intertwined at the micro interactional level especially online and for what purposes This interactional sociolinguistic study contributes to filling this gap by demonstrating how specific intertextual linking strategies both linguistic e.g word repetition deictic pronouns and multimodal e.g emojis symbols and GIFs are mobilized by posters participating in online weight loss discussion boards These strategies serve as a resource to accomplish the metadiscursive activities targeted at various levels of discourse through which participants construct shared understandings negotiate the group's interactional norms and facilitate engagement in the group's primary shared activity exchanging information about and providing support for weight loss healthful eating and related issues By rigorously applying the perspective of metadiscourse in a study of intertextuality Intertextuality 2.0 offers important new insights into why intertextuality occurs and what it accomplishes it helps people manage the challenges of communication Graphic Texts Eva Teubal, Ainat Guberman, 2014-11-04 The message of the book is straightforward and easy to apply it derives from the interweaving of long years of field work with a solid theoretical background The practice advocated presents children with the opportunity to confront contents and situations which are only too often considered inaccessible for them The abundant examples presented show that when provided with an adequate toolkit composed of graphic texts children are inherently motivated by the challenges surrounding them and can make the most out of them as valuable learning opportunities Drawings icons photographs maps and calendars are incorporated into the tool kit while they are being used in circumstances in which they are required children appropriate them while exposed

to their use and experience their affordances Children realize how the graphic texts empower their performance The fact that this toolkit is multimodal involves several sensory modalities implies that those for whom language is not the most readily available means of communication and processing are not discriminated against on the one hand it facilitates conceptualization and its expression by alternative means and on the other it supports both the comprehension and production of verbal language

Reclaiming Conversation Sherry Turkle, 2016-10-04 Turkle presents a powerful case that a new communication revolution is degrading the quality of human relationships The New York Review of Books Turkle's witty well written book offers much to ponder Talk is cheap but conversation is priceless Boston Globe This is a persuasive and intimate book Washington Post Renowned media scholar Sherry Turkle investigates how a flight from conversation undermines our relationships creativity and productivity and why reclaiming face to face conversation can help us regain lost ground We live in a technological universe in which we are always communicating And yet we have sacrificed conversation for mere connection Preeminent author and researcher Sherry Turkle has been studying digital culture for over thirty years Long an enthusiast for its possibilities here she investigates a troubling consequence at work at home in politics and in love we find ways around conversation tempted by the possibilities of a text or an email in which we don't have to look listen or reveal ourselves We develop a taste for what mere connection offers The dinner table falls silent as children compete with phones for their parents attention Friends learn strategies to keep conversations going when only a few people are looking up from their phones At work we retreat to our screens although it is conversation at the water cooler that increases not only productivity but commitment to work Online we only want to share opinions that our followers will agree with a politics that shies away from the real conflicts and solutions of the public square The case for conversation begins with the necessary conversations of solitude and self reflection They are endangered these days always connected we see loneliness as a problem that technology should solve Afraid of being alone we rely on other people to give us a sense of ourselves and our capacity for empathy and relationship suffers We see the costs of the flight from conversation everywhere conversation is the cornerstone for democracy and in business it is good for the bottom line In the private sphere it builds empathy friendship love learning and productivity But there is good news we are resilient Conversation cures Based on five years of research and interviews in homes schools and the workplace Turkle argues that we have come to a better understanding of where our technology can and cannot take us and that the time is right to reclaim conversation The most human and humanizing thing that we do The virtues of person to person conversation are timeless and our most basic technology talk responds to our modern challenges We have everything we need to start we have each other Turkle's latest book *The Empathy Diaries* is available now
