

# MAINTENANCE

## Deck belt installation

NOTE: For ease in installing the deck belt, refer to the routing decal on bottom of seat.

- Wrap the deck belt around the electric clutch pulley that is located on the engine shaft.
- Route the belt forward between the EZT (E-Series Zeroturn Transaxles) and up onto the deck.
- Place belt around spring loaded idler pulley, between the pulley and guide. Secure bolt and nut.
- Starting on the right hand side of the deck, wrap the belt around the stationary idler pulley, the right mandrel housing, then around to the left mandrel housing.
- Push inward on the idler arm and carefully route belt over stationary idler pulley. Once belt is properly routed, slowly release idler arm to tension belt.
- Double check belt routing to make sure it matches the routing decal, and the belt does not have any twist. Correct as needed.
- Replace belt shields on both mandrel housings and secure with fasteners.
