Metalinguistic Awareness: Recomposing Cognitive, Linguistic and Cultural Conflicts Oreste Floquet, Sergio Melogno, 2024-04-16. This volume is dedicated to Maria Antonietta Pinto's research across the past five decades. The title reflects not only the dominance of metalinguistic awareness in Pinto's work but also the pathway through which this construct has been elaborated over the years. Under the influence of two great mentors Jean Piaget for the cognitive aspects and Renzo Titone for the psycholinguistic aspects, Pinto created an original construct of metalinguistic awareness and instruments to measure it at different developmental stages. The volume pays tribute among other aspects to the heuristic value of this construct and its use in international research.
