**Secret Wings of World War II** Lance Cole, 2015-06-30 There are many myths and legends surrounding the advanced German aeronautical technology of the Second World War There are also facts and proven events Yet within these stories and behind these facts lie conspiracy theories mistaken assumptions and denials that seem to contradict the evidence So what really happened How far ahead were the German scientists And of even greater interest why and how There have been other books about advanced German wartime aeronautics yet few authors have fully examined the detail of the designs and their relevance to the fighter and bomber legends of the 1950s and 60s let alone the current crop of military and civil all wing or blended wing aircraft This book charts the story from its origins through current day innovations and beyond into the all wing future of tomorrow

*The Pentagon Wars* James G Burton, 2014-02-15 From the late 1960s through the mid 1980s a small band of military activists waged war against corruption in the Pentagon challenging a system they believed squandered the public's money and trust. The book examines the movement and its proponents and describes how the system responded to the criticisms and efforts to change accepted practices and entrenched ways of thinking. The author, an air force colonel and part of the movement, worked in the Pentagon for fourteen years. He presents a view of the Department of Defense that only an insider could offer. He exposes serious flaws in the military policy making process, particularly in weapons development and procurement. The details he gives on the unrelenting push for high tech weapons despite their ineffectiveness and extraordinary cost overruns provide a strong case for the charge of ethical bankruptcy. The second half of the book deals with the author's attempts to get frontline equipment tested under combat conditions. For the first time, readers learn the nasty details of his battle with the army over live fire testing of the Bradley Fighting Vehicle, a battle that he eventually won, leading to the personnel carrier's redesign and the saving of many lives. Never reluctant to name names and reveal details, James G Burton presents a forceful case. And his revelations offer insights not found elsewhere into the motivations and actions of the people who wield power from within. Nor does he stop at the walls of the Pentagon. In his epilogue, he tells what happened in the field during the final hours of the Gulf War that allowed Hussein's elite Republican Guard to escape. Now back in print after having inspired a feature HBO film, this explosive account of insider corruption is sure to serve policy makers for generations to come.

**Lyndon Johnson and Vietnam** Herbert Y. Schandler, 2014-07-14 This book examines the events that led up to the day March 31, 1968, when Lyndon Johnson dramatically renounced any attempt to be reelected president of the United States. It offers one of the best descriptions of U.S. policy surrounding the Tet offensive of that fateful March, a historic turning point in the war in Vietnam that led directly to the end of American military intervention. Originally published in 1977, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Anyone But You KG MacGregor, 2014-06-12 An underground pipeline has ruptured, spilling oily sludge into Minnesota's pristine Lake Bunyan. Taking the media's heat for Nations Oil is Corporate Communications Director Cathryn Mack, an old pro when it comes to spinning the facts in her company's favor. Stuck in Duluth to handle the press during eight weeks of cleanup, she finds a silver lining when Stacie Pilardi pops up on SappHere, a mobile app that seeks out nearby lesbians. Stacie is smart, funny, sexy as hell, and wants a long-term relationship as much as Cathryn, which is to say not at all. A perfect arrangement until they realize they're rivals. Stacie is head of the Clean Energy Action Network in town to protest the greed and recklessness of oil companies and the havoc they wreak on the environment.
