Selected paper from 6th International Conference on Renewable Energy Sources (ICoRES 2019) Marcin Jewiarz, 2020-11-23 Thank you for reaching for this book It is a summary of the research presented at the 6th International Conference on Renewable Energy Sources ICoRES19 which took place in Krynica Poland in June 2019 This event is the most recognizable scientific meeting connected to RES in Poland From the very beginning this conference has been a unique

occasion for gathering Polish and international researchers perspectives on renewable energy sources and balancing them against governmental policy considerations Accordingly the conference has also offered panels to discuss best practices and solutions with local entrepreneurs and federal government bodies The meeting attracts not only scientists but also industry representatives as well as local and federal government personnel We are open to new and fresh ideas concerning renewable energy which is why so many scientists from Central and Eastern Europe visit Krynica to discuss the Green Future of this region In 2019 the conference was organized by the University of Agriculture in Krakow in cooperation with the AGH University of Science and Technology Krakow the State Agrarian and Engineering University in Podilya the University of ilina the International Commission of Agricultural and Biosystems Engineering CIGR and the Polish Society of Agricultural Engineering Honorary auspices were made by the Ministry of Science and Higher Education of the Republic of Poland the rector of the University of Agriculture in Krakow the rector of the AGH University of Science and Technology and the rector of the State Agrarian and Engineering University in Podilya

European Products Gisela Welz,2015-09-01 On the Mediterranean island of Cyprus rural villages traditional artefacts even atmospheres and experiences are considered heritage Heritage making not only protects but also produces things people and places Since the Republic of Cyprus joined the European Union in 2004 heritage making and Europeanization are increasingly intertwined in Greek Cypriot society Against the backdrop of a long term ethnographic engagement the author argues that heritage emerges as an increasingly standardized economic resource a European product Implemented in historic preservation rural tourism culinary traditions nature protection and urban restoration projects heritage policy has become infused with transnational market regulations and neoliberal property regimes

German as Contact Zone Russell West-Pavlov,2019-09-09 This book suggests that linguistic translation is one minute province of an immense process of creative activity that constitutes the world as an ongoing dynamism of unceasing transformation Building upon the speculative quantum gravity theory which provides a narrative of the push pull dynamics of transformative translation from the very smallest scales of reality to the very greatest this book argues that the so called translative turn of the 1990s was correct in positing translation as a paradigmatic concept of transformation More radically the book stages a provocative provincialization of linguistic translation so that literary translation in particular is shown to display a remarkable awareness of its own participation in a larger creative contact zone As a result the German language literary translations in and out of German and the German language classroom can be understood respectively as quantum contact zones Russell West Pavlov is Professor of Anglophone Literatures at the University of T bingen and Research Associate at the University of Pretoria
